

The Psychology of Religion Report
Explorations on Religion without Archetypal Evolution
Dr. Edward Schellhammer

This is a fundamental and rigorous psychological analysis of Christian Religion (not of God) and the new archetypal concept of human development (evolution).

If you are easily hurt in your religious feelings, it means: You simply feel ashamed, embarrassed, and guilty about how deep you are fallen in the archaic religious trap!

Sigmund Freud and a thousand other pioneering thinkers already said: *“Religion is the heroin for lazy-minded and stupid people.”* We say: *“Blame yourself and not those who uncover the lies searching very hard for the truth, the Mystery of Mankind!”*

Fact is: Since millenniums people speak to an immense wall to get help, to ask for forgiveness and to get answers for their questions. But they get never a response from the wall. It seems to be a history of iron stubbornness, rigid self-righteousness, or blinded stupidity.

Did God (Jesus, Mary or any ‘Holy Man’ or ‘Holy Woman’) help the people and soldiers on the battlefield of Verdun, during the First World War, and for example in Stalingrad, during the Second World War? Did God, Jesus, or any holy entity in the other world, protect the people from wars, governmental atrocities, slavery, Colonialism, Neo-colonialism, Capitalism, Banking Casino, financial crashes, and extreme poverty?

People pray to God in many ways with an attitude of fear, subservience and submission. Their God is an ‘entity’ somewhere in the universe. This kind of ‘relationship’ creates bondage like an addiction. Part of this ‘connection’ is expressed in “God forgive me my sins”. Does He?

Is ‘Religion’ really about “to bind oneself back to God or to a supernatural power in the universe”? If there is a God, does he really need or want that we glory and worship him with prayers, words, songs, being an obedient servant, or with a kind of mental, emotional or existential submission? This must be a very narcissistic and Ego-centered God.

God, designed as a man or woman with human aspects is nothing else than an infantile projection to subordinate people. Religions teach incomprehensible fabrications as the infallible truth for their own sake of power. What for should people bind or connect with an unknown God somewhere in the universe?

We don’t need to bind with God or Gods in the other world or with any kind of supernatural being. If there is a God, he certainly doesn’t need us for his Ego. He doesn’t have a ‘help-syndrome’ and he can’t help anyway. The Prophets, Saints and other holy beings can’t help either.

There is an immense power fight and mess between and about the many religions and beliefs on this planet. Its bloody history is at least 3.000 years old and hasn’t changed much since then. There is no chance to clean out and to renew these mental constructions for a common denominator.

After 3,000 years of a Dark Age for the sake of 'divine' wars, rooted in Genesis I-28, it's time today to find back to the truth about the 'Archetypal Human Evolution'.

The Core: Become Genuinely Yourself

- ☹ Renew yourself, your mind, your life, and you renew the world.
- ☹ Create your inner paradise and you create a paradise on earth.
- ☹ Learn, study, grow and live a meaningful life for your fulfillment.
- ☹ Live solidarity for the divine Archetypal Human Evolution.

Criticizing religion has nothing to do with 'hurting religious feelings'. It does not question God, spirituality, and the other world. The truth is that behind 'hurt feelings' is the shame and shock about having fallen in this religious trap, which a narcissistic Ego can never accept and therefore accuses the criticizing person as a 'godless' creature. That's perfidious and debunks the falseness of the believer and his belief!

If 6 billion people are told that God is in a specific stone, then they all worship to this stone. All other people are godless and blasphemers. That's the core problem of 'Psychology of Religion'.

Deadly Sins

Deadly sins are the result of the failure in politics, economics, religion, mass media, culture, public education, ways of living, meaning of life, and relationships especially in family life. Leaders in all systems of politics, economics, religion, mass media, culture, and public education are responsible for the immense pest of the collective sins with all its consequences.

The core of the deadly sins is the completely wrong and distorted understanding of humans, human evolution, and ways of living with human values and the Archetypes of the Soul. The entire world is a global theatre of glorifying, heating up, and perfecting the sins in a vicious carousel (circle) directing with increasingly high speed towards Armageddon.

The spiritual result is the accumulated collective guilt and a humanity that prefers to cover this guilt with collective suicide through contamination, wars, destroying ecosystems, unhealthy food and dirty water, and the absence of the archetypal human evolution.

No Solution without the Truth

- If any of the (genuine) Prophets since 3000 years would reincarnate today, most people would scream: "Crucify Him!" The collective law: Never unveil the truth!
- If God would come to earth as a kind of Light or Sun or Cloud, most people would run away or call Him 'the Evil', 'the Harasser', or 'the Intruder' and try to destroy (eliminate) Him. The state of humanity is an expression of 'Deicide' ('killing God')!
- Any fake Prophet, fake wise man or woman, and fake authority are welcome! But rarely the truth that is to discover inside! (Fake = 'Fabrication')
- People don't even want the truth outside in the world, about the world and the people; and today about the future (5-10-50 years ahead); or about their own inside.
- People mostly want to be confirmed (as 'good' or 'right') in what they are and how they appear – but are they? Discover the unconscious world and you know!
- To reject and run away from the 'Sun' is the fundamental characteristic of the archaic Age. The more critical an inner 'complex' is, the more the (some) mental functions are malformed. The faster people run away and convert the 'Sun' into the opposite, their 'enemy'!

Genuine Spirituality

The word 'Spirituality' has been distorted, abused, filled with hot air and psychotic emptiness billions of times. Only a new genuine understanding of this word can bring humanity forward in the collective process of the 'Evolution of Humanity'. To be and to grow as a human is immanently spiritual:

- Genuine human values and inner needs are spiritual
- The ability to love is a spiritual function
- The interdependence between humans and the planet is spiritual
- The meaning of all human interactions is spiritual
- Searching for the meaning of life is spiritual
- To forgive, reconcile, learn, and renew is spiritual
- Joy of life and genuine happiness are spiritual
- Peace has an inherent spiritual meaning
- Friendship and brotherhood for the truth is spiritual
- Fulfillment in life is a spiritual aim of human's life
- Love between a man and woman is especially spiritual
- Marriage has a deep spiritual and archetypal meaning
- Inner archetypal processes are spiritual and psychological
- Catharsis of the unconscious mind is a spiritual process
- Creating balance between the different mental systems is spiritual
- Growing towards wholeness is a psychological and a spiritual process
- Sharing life experiences includes a spiritual dimension
- Being confronted with death is a spiritual challenge
- Faith and faithfulness imply spiritual qualities
- Dreams are created by the spiritual intelligence
- Thoughts and emotions create energy and this is spiritual
- Humans radiate psychical energy and this is spiritual
- Telepathy creates connection and is a spiritual connection
- Practicing self-knowledge is psychological and spiritual
- Meditation about meaning and understanding is spiritual
- Questioning about humans always leads to spiritual dimensions
- Spiritual qualities require quality of all psychical functions
- Creating a baby has a lifelong spiritual impact
- Justice and truthful democracy have a spiritual quality
- Devotedness is rooted in spiritual quality
- To care for spiritual qualities is a spiritual performance

Psychical-Spiritual Development

The conclusions are immensely shocking. Archaic Religion...

- separates its teaching from the shaping of the mind.
- has no concept of the psychical-spiritual development.
- has no idea about the eternal Archetypes of the Soul.
- is irrelevant for reaching highest possible fulfillment.
- can never manage human evolution towards God.
- is never connected with the eternal source of life.
- is a frightening abuse of the minds and souls of people.

Many people fix their 'libido' (life- or lust-energy) in more or less quantity (intensity) to a religious (spiritual) institution, person or teaching.

- Even with a loose fixation or a factual distancing many people still blindly believe, what gets taught and practiced in (by) the Church.
- All according to the motto: “Something must be true, but I don’t understand anything”.
- Apart from that, a whole series of further binding compensations and projections take place.
- A religion (spiritual institution) declares to be the ‘true’ and ‘infallible’ spiritual home – and creates roots already prenatal.
- Apart from that many further binding compensations and projections take place – also with roots already in the prenatal time.
- Dependent on subsequent life experiences the inner bond to the Church becomes indissoluble, insane or stupid – mostly already prenatal.

Religion and Roots of Unconscious Complexes

Psychoanalysis teaches us that the human being before birth already begins to develop primary mental patterns and unconscious complexes.

- The more negative prenatal experiences about father and mother, and about life in general, the more negative life experiences during the first three years, the more grows an intensive drive for compensation, for projection and for a ‘true’ and ‘infallible’ spiritual home and salvation.
- A Religion promises to connect with the transcendental source. Naturally, and even more driven by the unconscious complexes, the soul wants to belong to a religious or spiritual community.
- A distorted and imbalanced, undeveloped and malformed, neurotic and psychopathic mind creates a religion that can never be better in teaching, practices and effects than the way the mind is shaped.
- People that participate in an ‘archaic’ religious community fundamentally become distorted and imbalanced, undeveloped and malformed, neurotic, and so on.
- We conclude that the orientation on a religious or spiritual institution or teaching is in itself either bad or dangerous.
- Orientation on religion is naturally required and useful (supportive) for the soul, the psychical-spiritual development and for the handling of life itself.
- What is dangerous is what the religious institutions promise to be but de facto is not, and does not have the ‘truth’ and therefore cannot give the truth.
- What is especially dangerous is where insane heresies lead human beings and humanity, and also politics.
- If religious teaching is disconnected from the mental functions and the immanent potentials of the mental functions, the teaching becomes psychotic, illusionary, and manipulative (brainwashing).

→ Psychotic, illusionary, manipulative, and brainwashing religion is a sham and an abuse of people.

Mind and Religion

- There would not be any religion if people would not have mental functions.
- To separate religion from the mind with its mental functions to be developed is the fundamental fault of all religions.
- The way the mental functions operate depends fully on the mental development, on education, on experiences and environment.
- Religion, its teaching and practices, can’t be better than the operational quality of the shaped mental functions of its agents.

→ Religious leaders and agents can’t be better than the quality of their shaped mental functions.

→ Politicians and leaders in the economy can’t be better than the quality of their shaped mental functions.

The Unimaginable Disgrace

- Most fathers, mothers, grand-fathers and grand-mothers, uncles and antes, brothers and sisters, also the partner and their children, have very malformed and distorted mental functions.
- Most of the teachers and professors students had in the past and may have today, and / or in general they know, have (had) very malformed and distorted mental functions.
- Most of Christian religious incumbents, including Bishops, Cardinals and the Pope, have very malformed and distorted mental functions.
- A huge majority of politicians and leaders in societies worldwide have very malformed and distorted mental functions.
- They all are brainwashed, misshaped, and mislead since prenatal time from the pseudo-religious inheritance since the archaic Age.

→ Thus, a huge majority of the 7.6 billion people (2018) have very malformed and distorted mental functions.

→ Thus, these people are completely lost and humanity as a community is lost as well!

Fundamentals of Human Evolution

All psychical and spiritual functions of the mind have to be formed in an all-sided balanced way in order to get success in business and life, to reach happiness, genuine joy of life, a constructive way of living, and the complete fulfillment.

- Without this forming process sustainable human qualities and complete fulfillment can't be achieved. Human evolution becomes Necrophiliac.
- Without this forming process no salvation and no redemption is possible, not with any religious or spiritual belief or magic practice.
- Without this forming process a human being stays in inner oppositions, inner disruption, in defense of the realities, and in fundamental unconsciousness.
- If a human does not consciously form these psychical and spiritual functions aiming completeness, then he is and remains an archaic human; simply a human biomass with a congruent lower or higher value.
- Collectively ignoring the adequate forming of the mental functions not only makes people dependant on authorities (churches, institutions, politics, leaders), but in the end destroys humanity and the planet.

→ Most authorities are not formed in an all-sided balanced way; a huge majority has a very malformed and distorted mind.

→ Archaic religions, also politics and leadership, are the agents of decay and doom. Who now still wants anti-evolutionary archaic religions?

Roots of Unconscious Complexes

Psychoanalysis and the science of Epigenetics teaches us that the human being already before birth begins to develop unconscious complexes.

- The more negative prenatal experiences about father and mother and the environment, the more negative life experiences during the first three years, the more grows an intensive drive for compensation, for projection and for a 'true' and 'infallible' spiritual home and salvation.
- The Church promises to connect with the transcendental source - with God. Naturally, and even more driven by bad prenatal experiences and unconscious complexes, the soul wants to belong to a religious or spiritual community.

- A distorted and imbalanced, undeveloped and malformed, neurotic and psychopathic mind creates a religion that can never be better in teaching, practice and effects than the way of the shaped mind.
- People that participate in such a religious community fundamentally become distorted and imbalanced, undeveloped and malformed, neurotic, and so on.

Fixation on Religion

The orientation on a religious or spiritual institution or teaching is in itself neither bad nor wrong or dangerous.

- Fixation on religion is naturally required and useful (supportive) for the soul, the psychical-spiritual development and the handling of life itself.
- What is dangerous is that the religious institutions promise to be and to give something that is false, that they do not have, that they don't have the truth and therefore cannot give the true source of life.
- What is especially dangerous is where distorted or insane minds and fake authorities lead human beings and humanity.
- If religious teaching is disconnected from the mental functions and from the principles of the Soul (Archetypes), the teaching becomes psychotic, illusionary, and manipulative (brainwashing).

→ **Psychotic, illusionary, manipulative, and brainwashing religion is a sham and an abuse of people.**

Meaning of the Archetypal Life Symbol

Human being, life, love, joy, zest for life, lust, full of life, satisfaction, happiness, hope, justice, peace, power of the inner Spirit, centered in the inner Spirit, all-embracing life, totality, completeness, balance, openness, light, confidence, aim, psychical-spiritual evolution, fulfillment, conjunction of the real and spiritual world, fulfillment of the Archetypes of the Soul, source of life, catharsis, renewal, reconciliation, forgiveness, salvation, redemption, and presence of God!

The Abuse of Humans

- Identification with the almightiness of God or the founder of the religion serves as a compensation of a weak self-identity.

- Constrained sticking to beliefs is based on a magical defense of sexual drive and of the innermost devotion to the partner in a love relationship.
- Intelligence, reason and the spiritual intelligence are powerless in front of dogmatic beliefs. This extinction aims that emotions can bind unhindered identifications.
- Defense of belief serves the need for power, the greed to 'control it all', the narcissistic obsession to be recognized, and the protection of benefit.
- The per se valuable readiness to devote one's being and life to God is forced with menace through blind believing and restrained indoctrination.

How to Make Submissive Sheep

- Happiness and fulfillment are displaced to the other world instead of realizing them as psychical and spiritual values in this world.
- Deviance of beliefs is punished as against God in order to sustain one's system of beliefs and the religious institution.
- The immature tie in the infant age to the parents is transferred to the church and the religious teachings.
- Believing in salvation through God and the founder of a religion (yet in the other world) together with real and suggested guilt produce an act of slavish obedience.
- Expectation of salvation is projected (displaced) to the Church and its representatives. But salvation is an inner process of genuine (archetypal) growth.

Mental Reasons to Believe

- ☞ Humans are lazy, lazy to think, sluggish, superficial, don't want to learn.
- ☞ Humans want easy, fast, simple and direct solutions for their salvation.
- ☞ Humans want to belong, otherwise they are alone and excluded.
- ☞ Humans do not want to take responsibility for the truth.
- ☞ Humans cannot give up their belief, because they are stubborn.
- ☞ Humans themselves play a false, deceitful, deceiving game in life.
- ☞ Humans are psychically on the stage of development of a small child.
- ☞ Humans can live their own, open or concealed arrogance with their belief.
- ☞ Humans do not want to see, how their own parents are completely archaic.
- ☞ Humans suppress their hate of their father, mother and life with their belief.
- ☞ Humans don't have substantial knowledge to question themselves / others.
- ☞ Humans are scared to look at themselves in the inner mirror.
- ☞ Humans believe in 'holy lies' because they themselves lie, live in lies.
- ☞ Humans believe in archaic nonsense because they themselves are archaic.

Compensatory Reasons to Believe

- ☹ Humans have such a small ego, that they refurbish it with belief.
- ☹ Humans think they are better with their belief, than non believers.
- ☹ Humans choose illusions over the strong facts of life and human being.
- ☹ Humans hope for redemption of their unconscious complexes with belief.
- ☹ Humans compensate their weak, instable self-confidence with their belief.
- ☹ Humans flee from themselves and their own inferiority with their belief.
- ☹ Humans think that with belief they can tame their 'unworthy' desire (lust).
- ☹ Humans see their life as unworthy; create balance with belief.
- ☹ Humans have not been loved and hope to receive the love of God.
- ☹ Humans have experienced suffering and in their belief experience relief.
- ☹ Humans strengthen their imperiousness and their tyrannical personality.

- ☹ Humans don't have a genuine self-identity and find it in their community.
- ☹ Humans conceal their low psychical-spiritual development with their belief.
- ☹ Humans have an increased feeling of triumph, being in the 'true' belief.
- ☹ Humans increase their extremely low and bad self value with their belief.

Rejection of Responsibility for Life

- ☠ Humans are submissive to authority, easily deceivable and easily enslaved.
- ☠ Humans are like blind sheep, driven herd animals and followers.
- ☠ Human are cowardly and fearfully paralyzed by social pressure.
- ☠ Humans need the belief, in order to live their quarrelsomeness.
- ☠ Humans live their sick cantankerousness with their belief.
- ☠ Humans are scared of the shock that the truth can release.
- ☠ Humans have enormous concealed guilt, partly real and partly self suggested.
- ☠ Humans expect help from God and J.C. instead of helping themselves.
- ☠ Humans do not have any substantial self enlightenment and do not want any.
- ☠ Humans are sickened by themselves, their own body and flee into belief.
- ☠ Humans are submissive and masochistically bonded in their drive to religion.
- ☠ Humans are orally unsaved and nurture themselves through fixation on belief.
- ☠ Humans are scared, to recognize the devilish lies of the church.
- ☠ Humans are scared of life and therefore cling to their belief.
- ☠ Humans fear to recognize themselves, how they are deceived by the religion.
- ☠ Humans lose their ground, when they recognize 'infallible' truth as a lie.
- ☠ Humans can be disconnected from their sexuality and redirected to the Church.

The Spirit is the Highest Authority

The Spirit as the force creating dreams has specific characteristics:

- The inner Spirit is the highest authority and stands above all religions and dogmatic teaching.
- The spiritual consciousness of most people is still on an archaic level. Most people avoid getting in touch with the Spirit in their soul.
- People can't make their God responsible for everything and ask him for help as a substitute for dream interpretation or for using the spiritual intelligence.
- For most people God (religion, dogmatism) is a substitute for self-knowledge and self-development.

➔ **Institutionalized religion is a compensation of the use of the 'Spiritual Intelligence'.**

The Source of Life is Rooted Inside

- The Spirit knows why and how and he transfers messages to the person.
- The Spirit knows the 'Code program' of the psychical-spiritual growth.
- The Spirit organizes the elaboration of the inventory in the unconscious.
- The Spirit knows the paths and steps to a well-balanced being and life.
- The Spirit is the source for information about God and the transcendence.
- The Spirit identifies solutions where people can't find a solution with intelligence.

➔ **The Spirit is the source of all genuine religions, of all religious and spiritual teaching.**

➔ **Only the Spirit can create archetypal dreams and reveal the mystery of humans and human evolution.**

The Archetypal Process of the Soul

Christian Religion does not have any concept about the processes of development of humans.

The Supreme Spiritual Authority

Christian Religion does not have any realistic concept about the inner processes of 'spiritual authorities' such as 'Pope', 'Cardinal', 'Bishop', 'Priest' and the true Prophets.

- All these processes can only occur after the fulfillment of the completeness and wholeness.
- The appointments of the aims can start within the processes of psychical-spiritual development.
- All these processes happen in (archetypal) dreams, mostly mystery-like 'holy' sceneries.

Characteristics of Archetypes

- Archetypes are instruments that give orientation during the process of Individuation.
- Archetypes stimulate forces, growth and development.
- Archetypes order and place psychical forces into new structures and new interconnections.
- Archetypes open and light up new inner realities.
- Archetypes represent the eternally valid psychical-spiritual process and realities.
- Archetypes facilitate intercultural communication about these realities.
- Archetypes lead to experience the 'mystery' of man and God.
- Archetypes are the very old images of a transcendental reality.
- Archetypes of the soul are also energetic 'transformers'.

Archetypes in Dreams

Archetypes are expressed in symbolic sceneries and actions:

- Circle-cross-Mandala, pentagram, pyramid, square, triangle
- Philosopher's stone
- Chalice of the Grail, sword of the King of the Holy Grail
- King, queen; celebration of coronation, getting a 'bond' and insignia
- Birth, the new human being, a new land
- Sun, moon, light, source (well)
- Owl, speaking snake, eagle, lion, tiger, elephant
- Tree (life tree), garden (paradise)
- Cottage, house, chateau, castle, temple, 'holy' places
- Going on a journey, to 'school' (accepting the psychical spiritual path)
- Discovering inner life: searching for the treasure, going in deep darkness
- Transformation: To die, funeral, farewell, coming to a new land
- Marriage, embracement with a fairy, entering into a sun
- New spiritual principles: Insignia of a king, a wise person, a new land
- Harmony interior-exterior, melody, hexagram, light, warmth (of love)
- Circle, Circle-Cross-Mandala, sun, ancient source of life, paradise

Supreme Archetypes of the Soul

During a higher phase of psychical-spiritual development, a 'man of God' or 'woman of God' has experienced very special dreams related to the highest archetypal processes:

- 1) Experiencing God and his manifoldness
- 2) God's alliance with an individual (having reached fulfillment)
- 3) Becoming a specific destination of service in God (e.g. priest, religious leader, supreme teacher, spiritual master)
- 4) Experiencing the transcendental world of the souls
- 5) Denomination as a representative of a messiah or prophet (member of a council)
- 6) Authorization from the inner Spirit to develop further the religious (spiritual) teaching and practices
- 7) Getting a mission from God as a Prophet or Messiah
- 8) Power of attorney from God: Highest Judge of all Souls

There are since millenniums the supreme Archetypes (eternally infallible symbols) that express the power and destination of a spiritual king and a(highest) religious leader:

- Orb: God's Dominion over the World (spiritual)
- Crown: Royal Authority, Christ, the King of Kings (spiritual)
- Royal Scepter: Power, Dominion of a Monarch (spiritual)
- Scepter and Crown: Christ, Authority, King (spiritual)
- Pair of Balance: Spiritual justice, spiritual Jurisdiction
- Owl: Pure Spirit, Spiritual Intelligence, Wisdom (spiritual)
- Eagle (with open wings): Power above the (spiritual) World
- Circle-Cross-Mandala: Completeness, Fulfillment (in God)
- Sun: God, the Ultimate Source of Life (spiritual)
- King of the Holy Grail: Highest Transcendental Leadership (spiritual)

In the history of mankind, the inner Spirit in the soul of some wise men (and women) have created (have made vivid) these Archetypes in their inner life (soul).

Religions have stolen the transcendental archetypal experiences these wise people, spiritual kings in their soul, have performed and received in dreams. All Popes and Cardinals have stolen their archetypal experiences. Terrestrial Emperors and Kings have stolen their archetypal experiences.

Politicians, supreme rulers of folks, aristocrats and the elites in the capitalistic economy have stolen from wise men and women their experienced inner archetypal processes, have copied the archetypal pictures (from dreams such wise individuals have had), but never performed such inner transformations produced and guided by the inner Spirit.

- ➔ **This is the systemic failure of economics, politics, religion, public education, society.**
- ➔ **Fulfillment of supreme archetypal processes is not fusible with political power.**
- ➔ **Evolutionary politics must be practiced with respect for the Archetypes of the Soul.**

See the psychological problem of religion in a symbolic way: Result of examination of the water in holy water Basins in Germany's churches: 20 different types of water bacteria, especially Staphylococci. Village: 6,000 germs per milliliter; town: up to 21,000 germs per milliliter. 50% potentially pathogenic. The archaic religions are indeed pathogenic in many ways.

New Archetypal Life Book

A concept of a New Millennium 'Bible' is not simply about true religion and true spirituality, about a true prophet or any true new (or reincarnated) messiah, added with 'old holy words'. It's about the human evolution as a transcendental-terrestrial project and with that it's also about politics, economy, public and academic education (let's also add: mass media) for the future of humanity and the future ways of living. It's all about an 'Evolutionary Philosophical Anthropology', which includes the Archetypes of the Soul. In that sense, no 'New Bible' is needed, but a psychological, spiritual, philosophical, practical and archetypal 'Life Book'.

Many more examples with a thoroughly critical analysis you find in: Schellhammer: The Manifesto.
