

# Critical Content of The Bible

# The Bible consists in 2 parts

- 1) The Old Testament which reflects the History of the Jewish Religion with texts that originate from the 5<sup>th</sup> and late 7th century BC
- 2) The New Testament which began with first single documents around 125 AD ( 'anno domini' )
- 3) In the year 367 A.D. the first binding "Holy Scriptures" ( 'Vulgate' ) were a collection of scrolls)
- 4) We have also to mention: The Qur'an' s origins with Mohammed includes parts of the Old Testament and the New Testament

## Part 2

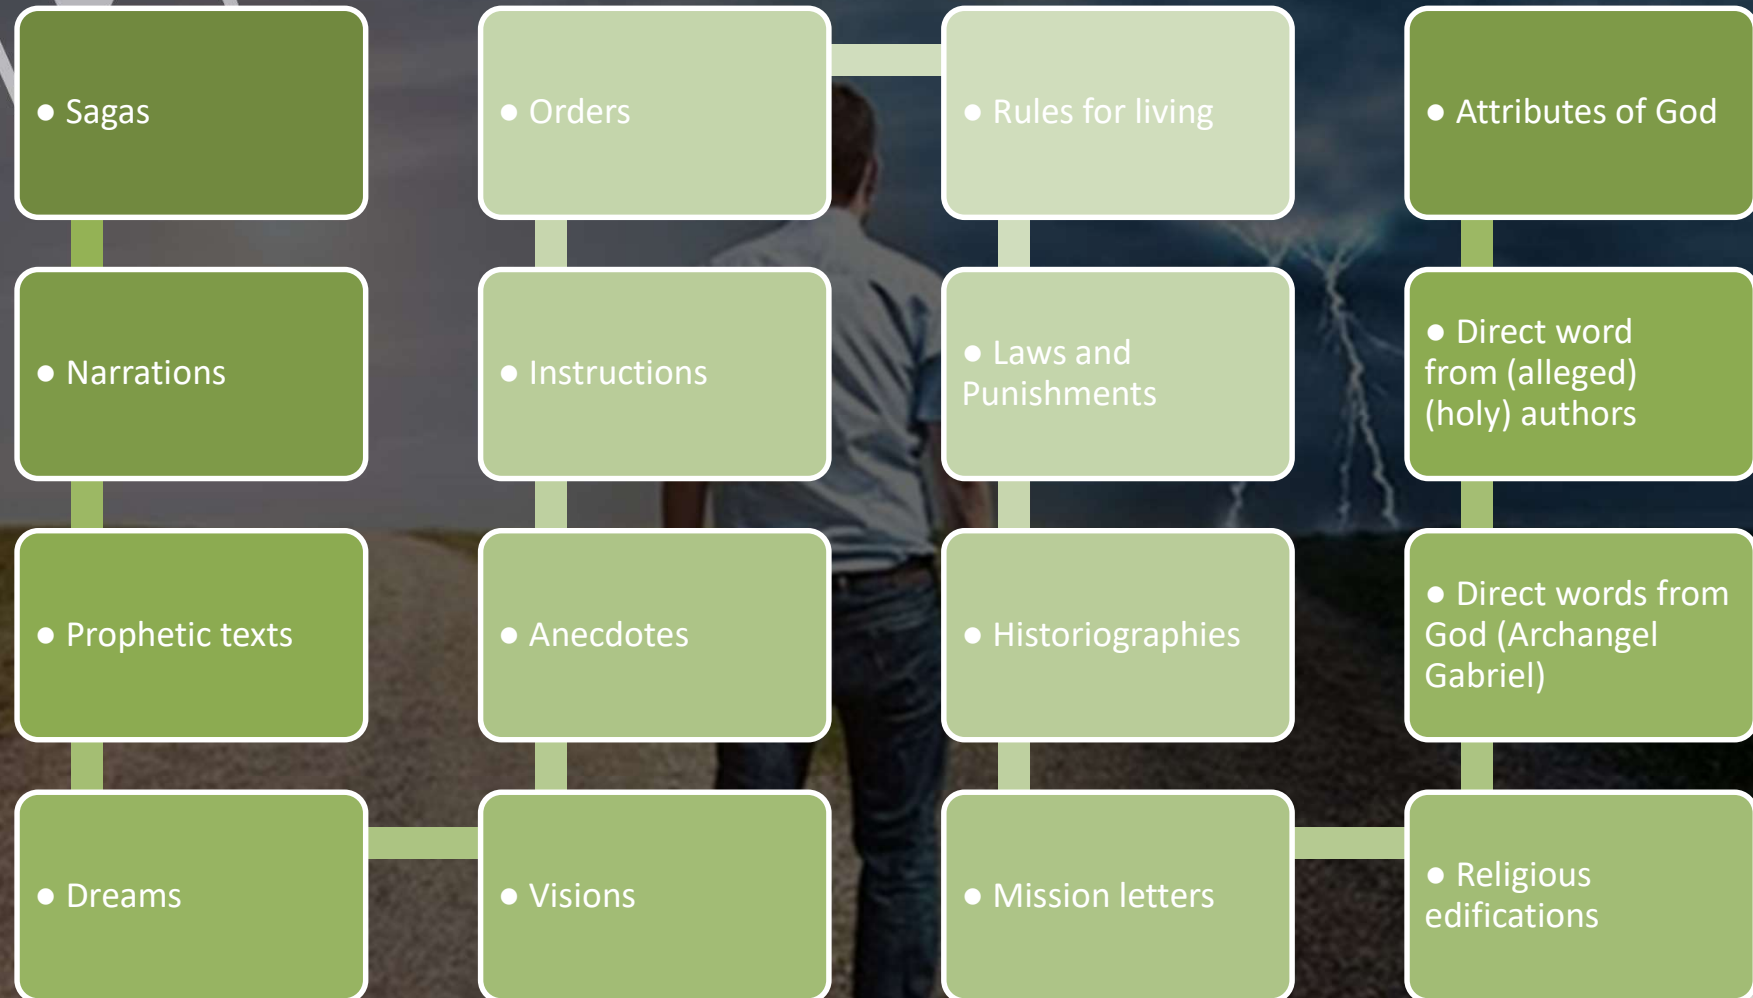

- Christ. Selection, interpretation and (re-)-shaping of texts
- De facto 'Christianity' has 'stolen' (selected) texts of the Old Testament from the Jewish religion; and the Islam has stolen (selected) texts from the Bible (Vulgate) and the Jewish religion.
- This part of the Bible (the Old Testament) is originally and in that sense not 'Christian' and does not reflect anything related to Jesus

# Forms of the Content

What does this have to do with 'true religion'?

# What is really from God direct?

# Spiritual Content of the Bible

- The story of God with the people
  - The creation of the earth and the people
  - God's word, declaration of belief
  - Tale of the salvific history
  - Testimony of the belief of the "risen J.C."
  - Revelation testimony of God
  - Portrayal of the afterlife, heaven and hell
  - Contents reflect longstanding traditions
- 
- ➔ Nothing is authentically documented!
  - ➔ There is no comprehensible testimony!

## SPIRITUAL CONTENT OF THE BIBLE

- **Crucifixion, resurrection, and salvation**
- **Redemption, forgiveness, exoneration**
- **Heaven, hell and purgatory, the eternal Paradise**
- **Wonderful interventions of God**
- **Communication with transcendental creatures**
- **Existence of individual transcendental creatures**
- **Doctrine of salvation, symbols, cult, rituals**
- **Revelation of God and eternity**

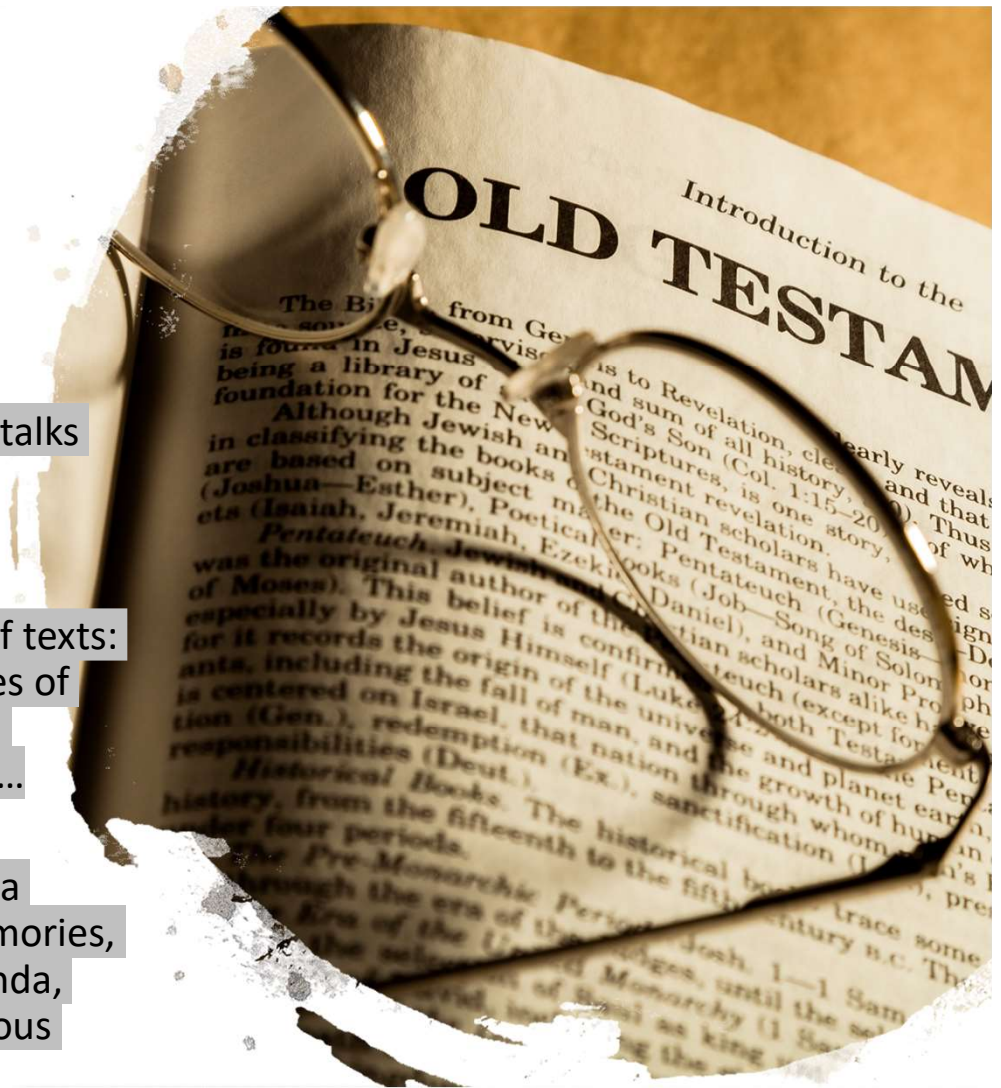

**➔ Nothing is authentically documented!**

# Religious Tales and Talks

- The Old Testament is based on testimonies and talks of the creation of the earth, the prehistory of mankind, the election, the history of salvation.
- The contents are put together out of a variety of texts: Tales, stories, law collections, testimonies, pieces of wisdom, chronicles, liturgical and poetical texts, lamentations, love songs, family sagas, legends ...
- The aim of the one-God-movement is to create a world epic as collection of historical scrolls, memories, sagas, popular tales, anecdotes, kingly propaganda, prophecies, partly original or copied from previous editions.

➔ Let's create a new tale: God must learn every day from the increasing lies, stupidity and madness of humanity.

# Practical Content of the Bible

- Sheds light on behavior, thinking, feeling, valuing

- War and more war; endless repetitions

- Love, hope, trust, justice, (to God), etc.

- The good and the bad people (characteristics)

- Partly understood as historically authentic

- Moral-ethical opinions and views

- Religious world-views, systems of interpretation

- Philosophical thoughts and systems of thinking

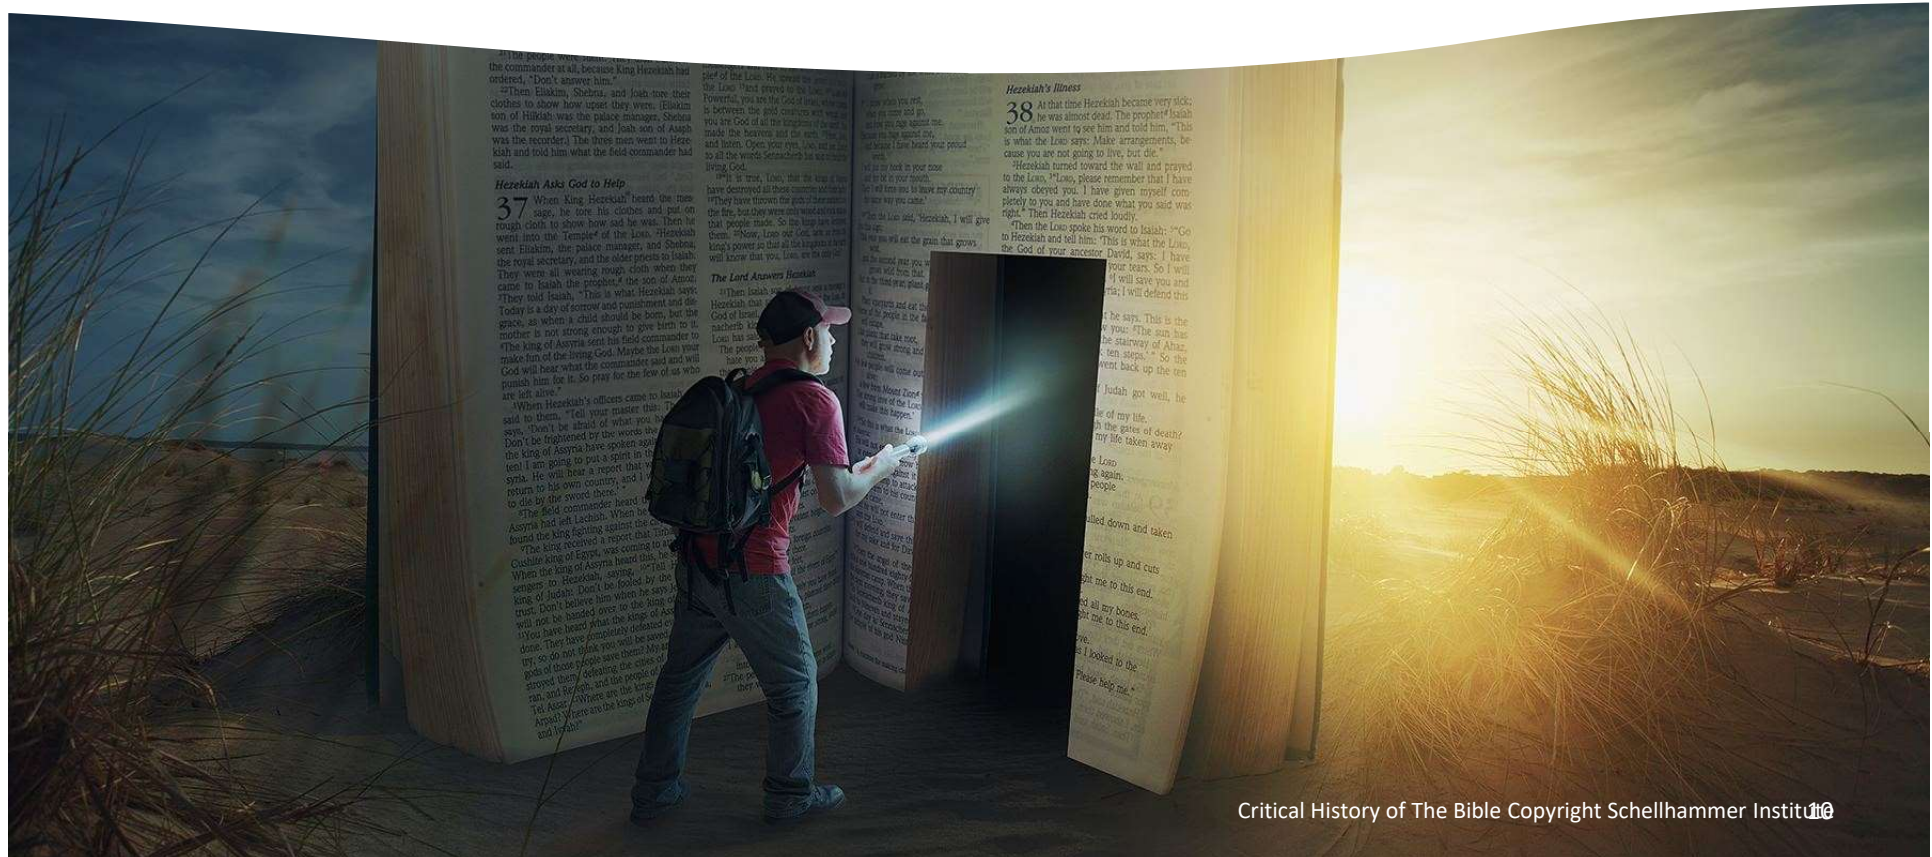

- Partly also political and theocratic justification

- Life, practical instructions (norms, rules, values)

- Stories about heroes (that never existed as such)

# Core Findings of Bible Research

- All stories in the Old Testament and New Testament are legends, myths, sagas, fictions, anecdotes, full of manipulation and deceit.
- The Bible is a chaotic and corrupted collection of texts. There are countless contradictions in the Bible. There is practically no real historical substance. The four Gospels are never a biography of J.C.!
- Today it is proven that the Christian dogmas already existed in the Middle East and Far East, at Jesus' time as well as thousands of years before his epoch; for example:

## Examples:

- The spiritual procreation, the physical resurrection, the mother of God, the son of God, the savior, the messiah, the prophet, the angels, the devil, God, the eternal life, the paradise, hell, the miracles, the dogma of the trinity, the crucifixion as a sin offering, the story about Adam and Eve, the natural death as a punishment, the creation as the beginning of the salvific history, and all the sacraments such as baptism, the remission, the last supper, etc.
- **Nothing is new and authentically 'Christian' in that sense!**

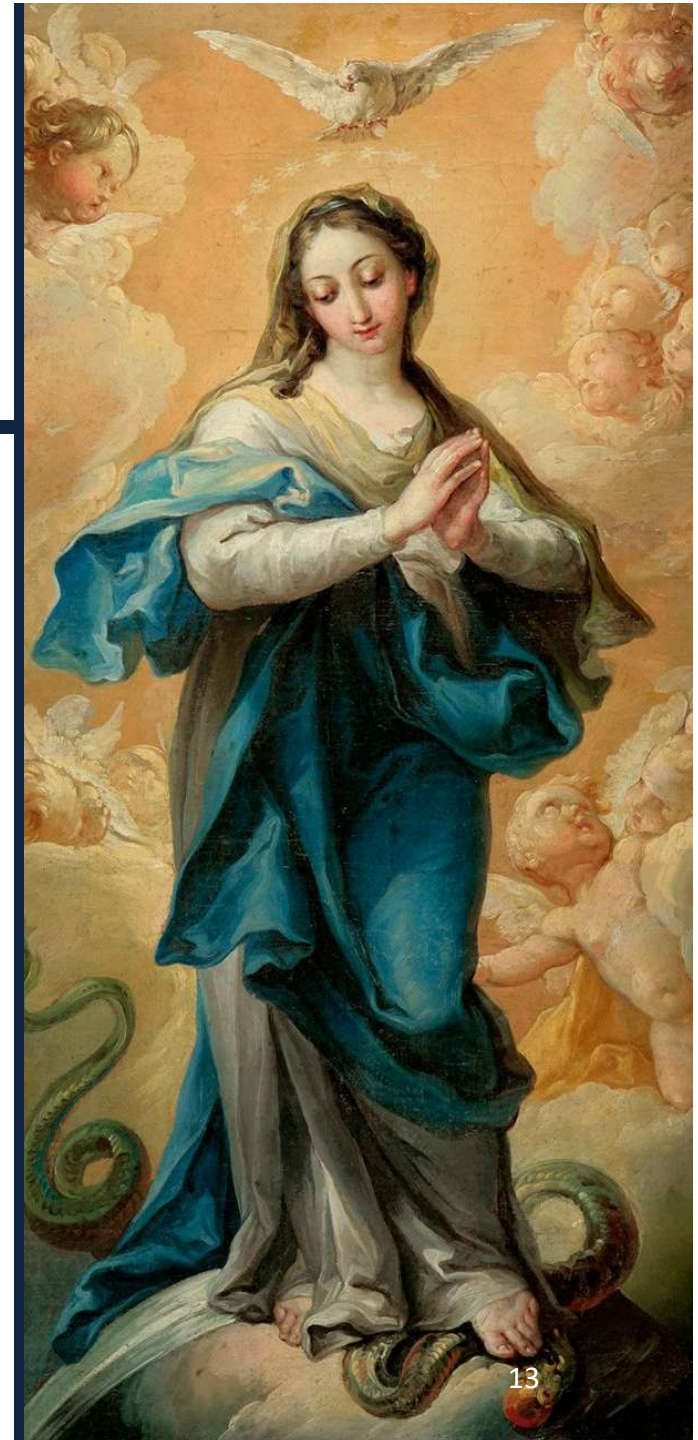

# Miracles attributed to Jesus

- The most famous miracles attributed to Jesus:
- Convert water into wine (John 2: 1-12)
- The multiplication of the loaves and fishes (Matthew 14: 13-21) ...
- Walk on water (Matthew 14: 22-27). ...
- Jesus calms the tempest (Matthew 8: 23-27) ...
- The resurrection of Lazarus (John 11: 38-44) ...
- He healed a leper (Matthew 8: 1-4)
- Two blind men receive sight (Matthew 20: 29-34)

# What is here the value for mental development?

- Miracle: Moses divides the Red Sea
- Resurrection of Jesus alive
- Resurrection of Mary alive
- Maria Immaculata: Jesus begotten by the Spirit
- God created the world (all life, species and resources) in 6 days

The purpose of the miracles is to lead their beneficiaries to acknowledge the goodness of God and to change their lives: really?

# Practical Content of the Bible

---

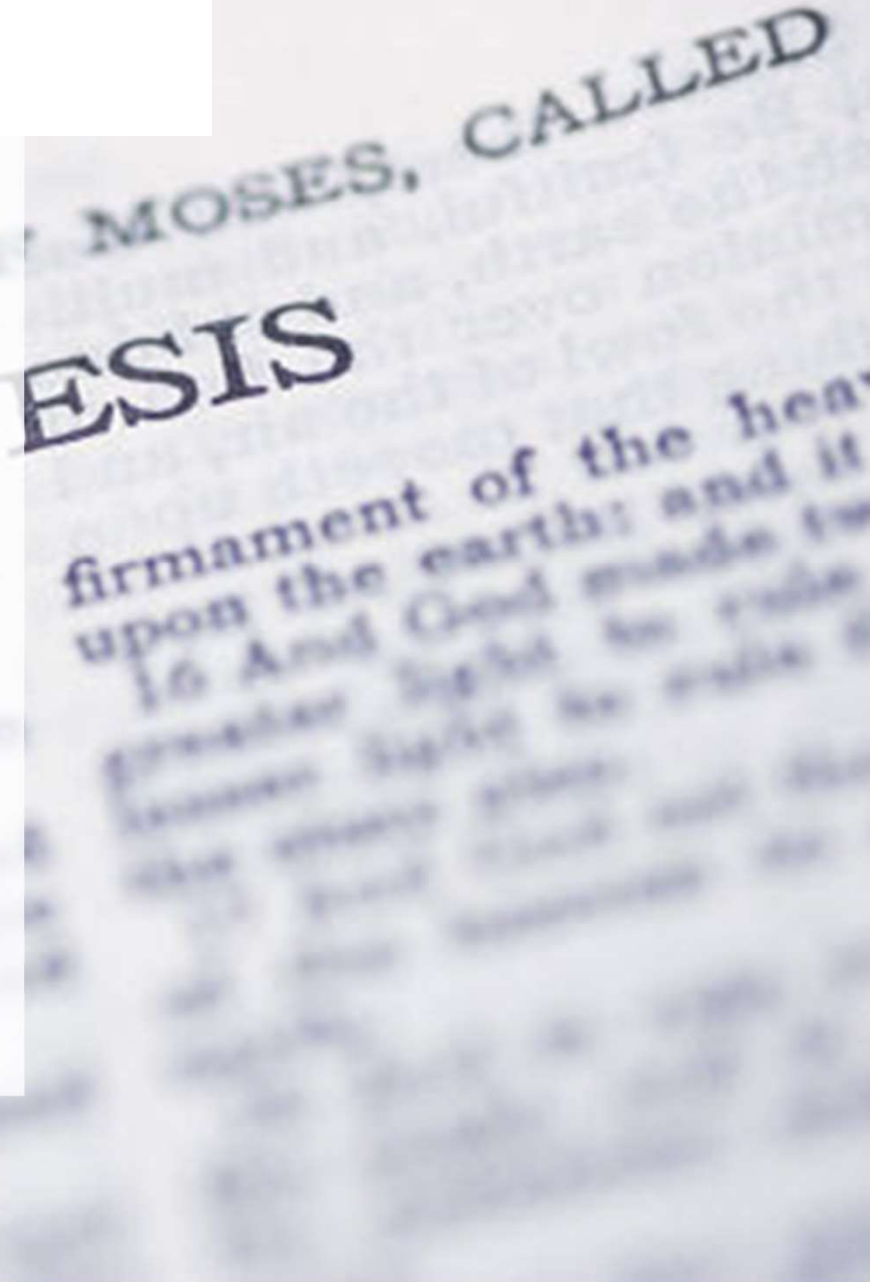

- Moral-ethical opinions and views
- ‘Religious’ world-views, systems of interpretation
- Philosophical thoughts and systems of thinking
- Life practical instructions (norms, rules, values)
- Stories about heroes (that never existed as such)
- Sheds light on behavior, thinking, feeling, valuing
- Love, hope, trust, justice, God’s punishment, etc.
- The good and the bad people (characteristics)

**Here is nothing that requires a God as source of these topics. Psychology and ethics encompass all of this!**

# Old Stories in the Bible

- The creation of the world according to old Sumerian beliefs is similar to the one in the Bible.
- The birth of Moses, his childhood and youth are from the time in the Mesopotamian region.
- The Ten Commandments can be found, slightly different, in the Egyptian Books of the Dead.
- Countless conceptions and tales in the Bible originate from other civilizations and religions.
- The exodus from Egypt is a conglomeration of legends from different epochs.
- The book of Joshua is a collection of sagas, heroic tales and local myths.
- The Genesis (1st book of Moses) is a concoction of various nomadic tales.

# Nothing New!

- There are 'Commandments' that originate from the Old Babylonia, the Hammurabi Codex.
  - In many old civilizations there were myths about floods, also in India, China and America.
  - Much already originated from the Epic of Gilgamesh from the Mesopotamian region.
  - Most of the religious customs and values have their roots in the Asia Minor and Egyptian region.
- ➔ The Old Testament turns out to be an artifact with many erratic statements from different societies over Centuries.

# The Early Catholic Mess

- The oldest conserved Greek texts from the New Testament originate from the 4th and 5th century.
- The ancient Christians that rejected the virgin birth of Jesus were considered a sect.
- The Gospel of St. Matthew did not know a virgin birth of Jesus, instead a natural procreation through Joseph and Mary. The idea of a virgin birth originates from ancient idolatrous cults.
- The new (Christian) state religion in the year 380 systematically burned all the old Christian scriptures. Source texts and several other Gospels were eliminated by the newly established Church.
- There are pressing suspicions that the biggest library in ancient times, in Alexandria were burned down on purpose in the interest of the new state Church. There were already then sect hunters.
- There are numerous essential contradictions in the Bible that reveal, that the many authors with differing knowledge and consciousness worked on this "Holy Book".

# The Impure Word of God

Critical History of The Bible Copyright Schellhammer Institute

- The Bible can never be the pure “word of God” and the “dictation of the Spirit”.
- There are no comprehensible reports, apart from a few archetypal dreams, that also need to be put into question.
- If everything is declared as the “word of God”, then one obtains a grotesque, chaotic, neurotic and schizophrenic image of God; it appears that everything has gone astray on a fatal religious psychosis.
- The environment of the origination of the “Holy Scriptures” is not “divine”, rather: power, wars, hate, power struggle, political interests, intrigues, murder, papal crimes, perversions, powerful and influential people, forgers, religious evildoers, etc.

# The “error free” Vulgate

- ☹ In the year 367 A.D. the first binding “Holy Scriptures” (a collection of scrolls) commissioned by the Pope was created by Jerome: the “Vulgate”.
- ☹ Vulgate: Latin translation, originally Greek (New Testament) and Hebrew (Old Testament).
- ☹ Previously numerous Latin translations existed, each one considerably differing from the other.
- ☹ The Roman-Catholic Church declared the Vulgate as “error-free”.
- ☹ But later errors were found, already in 1590 the new “error-free” edition was released (“Editio Sixtina”).
- ☹ Already in 1592 this was then replaced by the new “error-free” Editio Clementina.

# Religions are never 'infallible'

- Dogmas, religious teachings and practices ignore the psychical-spiritual life and the external life, a fundamental reality each human somehow has and is.
- A malformed and distorted mind results in a malformed and distorted religion (teaching, practices).
- Thus, religions don't care about adequate shaping of the mind (mental functions).
- All actual religions are archaic religions: they neither teach nor practice an all-sided forming and development of the mental functions, not psychological-spiritual, not archetypal.

# The Bible Today

- The Bible today is created to a complete work, of all the previous reigning interests of the past 3000 years.
- The Bible is the book of the Christian Churches that has been thousand-fold changed always according to private, ecclesiastic and political interests.
- The Bible today is a chaotically plugged together anthology of unrelated texts that hundreds of anonymous authors, publishers and copywriters created, reworked, translated, falsified, and “improved” .

**Over 2,000 diverse text variations and 250,000 variations of reading exist today. And these texts are translated today with many errors into 1,100 languages and dialects!**

## Religions Ignore the Human Development

22

- Religions do not care for profound self-knowledge.
  - They exclude the psychical dimensions of humans.
  - They ignore the holistic (archetypal and practical) psychical-spiritual development.
- 
- ➔ Without profound self-knowledge the genuine (archetypal) psychical-spiritual development is impossible.
  - ➔ Without the guidance from the dreams completeness and fulfillment is not possible.
  - ➔ Therefore religions are never infallible. They are a perversion of human nature and therefore a sham.

# Nothing in the Bible is “Holy”

- Nothing in the Bible or in the Church is “error-free” , “unflawed” , “untouchable” , or “infallible” , especially not the Pope or the ‘magisterium’ (the teaching authority of the Church ).
- The many gruesome events of mass murder that according to the Bible were arranged, advocated, supported or even accomplished by a vengeful God himself are absolutely insane.
- The Roman-Catholic Church is since a long time a rigid, even fossilized psychopathic power apparatus, rooted in thinking from the Middle Ages, still as devilish as the inquisition of the times.
- The world view of the Bible, including the ideas about the creation of the world and the human being, corresponds to the spiritual horizon and knowledge of human beings from around 2000-3500 years ago.
- 2000 years of Christian and Christian Church history have prevented timings and contexts to be seen scientifically and historically in true form.

# Fundamentalism

- Fundamentalism in religion (and ideologies) is an expression of fear of life, and of ill and morbid cantankerousness.
- Fundamentalism in religion and ideologies is an expression of an undeveloped, rigid, distorted or malformed mind.
- Fundamentalism shows lack of being connected with the inner source of life that can be found with dreams and meditation.
- Fundamentalism shows complete absence of genuine confidence and a healthy inner foundation of the mind.
- Behind fundamentalism is a deep heavy pain in the soul created from the archaic rigid fathers of these people.

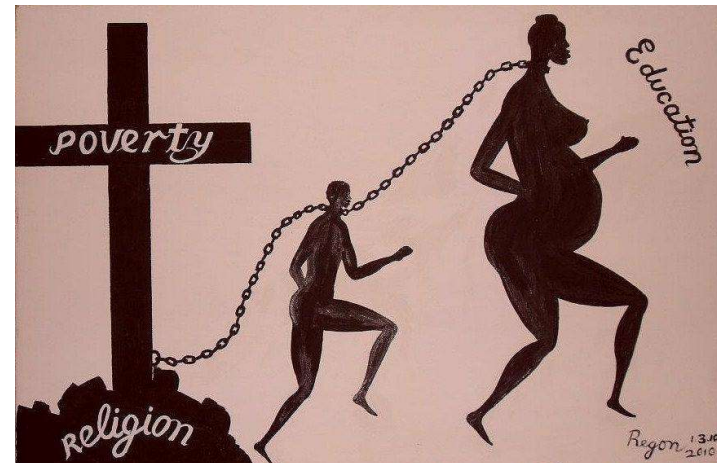

# The Historic Failure of Religions - I

- 6bn people believe in a God with innumerable different ideas
  - 2.2-2.4bn Christians + 1.5-1.8bn Muslims + 30 million Jews
  - The history consists in 5,000+ years of ideas about God
  - There are universities founded in the spirit of a religion
  - 100,000' s missionaries preach their psychotic and insane crap
  - Buddha and his followers could not provide a breakthrough
  - The chosen Jewish folk could not provide a breakthrough
  - Jesus Christ, Christianity and The Prophet Mohammed could not provide a breakthrough
  - 100,000 wise masters over the past 3,000 years could not provide a breakthrough.
- 
- ➔ Today, there is still absolutely no peace on earth!
  - ➔ Something must be totally wrong with religion!
  - ➔ 7.8 billion humans (2019) are lost in a dark labyrinth!

# The Historic Failure of Religions - II

- Billions of people pray regularly to God, but the world is at stake
  - All the religious teaching has not been able to create peace on earth
  - Countless wars with God, about God, the right God, the better God...
  - Nonetheless 80% of the world population lives in poverty, misery, and despair
  - All kinds of spiritual, religious, and ideological concepts failed
- Most leaders have learnt nothing from the history!
- Since millenniums historic mistakes have been repeated!
- Humanity has lost its archetypal evolutionary path!

# Concepts of Ideology and Religion

- Political and economic ideologies operate in the same ways as archaic religion:
- Capitalism, Socialism, Fascism, Liberalism, Consumerism, and other – isms are all separated from the genuine human being, the immanent meaning of life, and the Archetypes of the Soul.
- Religion, spirituality, psychology, politics, economy, business, culture, public education, and the entire world of sciences cannot ignore each other without severe consequences and in the end the destruction of human evolution.
- Archaic, essentially fabricated and highly psychotic and insane religions and ideologies as we have today, preponderantly religions who are rooted in the Old Testament or in magic thinking in general, lead to the destruction of the creation, the elimination of the human evolution as a transcendental project.

# Reincarnated Christ: Illusion or possible?

- It is known that since centuries here and there an individual claimed to be the Reincarnated Christ, offering a kind of psychotic crap.
- Today there are several individuals on earth claiming to be the 'Reincarnated Christ', offering a kind of infantile odd teaching.
- If Jesus would come back to earth or if Jesus would be already back, he would be the total nightmare for Christianity and the world.
- Imagine: He is a 'normal' man. You meet him at the supermarket. But you can't see his soul: "The King of the Holy Grail".
- Most Christians would shout: "Crucify Him! Destroy him and his life!" The motive is obvious: They all have heavy guilt as they live lies!
- The collective Christian lies are so immense, so that they terribly fear the truth and must cover their lies with endless more lies.
- However a Reincarnated Christ is real or not, the challenge to find the truth about the "Mystery of Mankind" is ultimately given today.
- **The Archetypal Process of the Soul marks the authentic path to find back to the track of the truth for the Human Evolution.**

# The Christian, who believes in ... I

- Lies, falsifications, forgeries, is himself a liar, forger, false person.
- A corrupt work and corrupt leadership, becomes corrupt himself.
- In the self-righteous teachings, becomes self-righteous himself.
- In the oppressive rules, becomes the oppressor himself.
- In the miracles of Jesus, then hopes for a miracle and loses his life.
- In the dehumanization of Jesus and Mary, dehumanizes himself.

# The Christian, who believes ... II

- in help by means of worshipping the cross, ends up in stultification.
- in absurd magic rituals, he himself lives with magical attitudes.
- in the cross of death and suffering, lives in constant suffering.
- in the content of religious songs, ends up in psychosis.
- in the salvation of the church, is lazy, naive, gullible, stupid, ignorant.
- in the perverse sexual teachings, becomes somewhat perverse.
- in the Vatican' s dignitaries, can never distinguish God from the devil.
- in the magic of redemption and salvation, is lazy and becomes rotten.
- in neurotic, psychopathic and psychotic teachings, becomes so himself.

# Archaic Religion Shapes Humans

## Humans: Malformed Creations

- Humans are lazy, lazy to think, sluggish, superficial, don't want to learn.
  - Humans want easy, fast, simple and direct solutions for their salvation.
  - Humans are submissive to authority, easily deceivable and easily enslaved.
  - Humans are like blind sheep, driven herd animals and followers.
  - Humans are cowardly and fearfully paralyzed by social pressure.
  - Humans want to belong, otherwise they are alone and excluded.
  - Humans themselves play a false, deceitful, deceiving game in life.
  - Humans are psychically on the stage of development of a small child.
  - Humans have enormous concealed guilt, partly real and partly self-suggested.
  - Humans do not have any substantial self-enlightenment and do not want any.
  - Humans do not want to see, how their own parents are completely archaic.
  - Humans are scared, to look at themselves in the inner mirror.
  - Humans believe in 'holy lies' because they themselves lie, live in lies.
  - Humans believe in archaic nonsense, because they themselves are archaic.
- ➔ These are the best conditions to mentally subjugate humans.
- ➔ Religious subjugation serves the governance and the economy.

## Archaic Religion Shapes Humans

### Humans: Fear of the truth

#### Humans:...

- are scared of the shock that the truth can release.
  - do not want to take responsibility for the truth.
  - do not have substantial knowledge, to question themselves or others.
  - are submissive and masochistically bonded in their drive to religion.
  - are orally unsaved and nurture themselves through fixation on belief.
  - are scared, to recognize the devilish lies of the church.
  - fear to recognize themselves, how they are deceived by the religion.
  - lose their ground, when they recognize 'infallible' truth as a lie.
- 
- ➔ These are the best conditions to mentally subjugate humans.
  - ➔ Religious subjugation serves the governance and the economy.

# The Crucifix: Source of the Evil

Death penalty like the electric chair or the lethal injection today!

Corpse: dead, the end, sadness, suffering, hopelessness, darkness, forlornness, and absence of God!

No hope, no love, no care, no zest, no justice, and no power of the inner Spirit!

No life, no joy of life, no happiness, no satisfaction, no lust, and no fulfillment!

Accusation, reproach, heating up hate, depression, fear, guilt, rage and revenge!

This is the object of the libido bond in Christian Religion

# Religion and Spirituality: Yes! But ...!

Religion in its origin and genuine meaning is fundamentally supportive and guiding for people, if rooted in the “Spiritual Intelligence” and the “Archetypes of the Soul”, additionally balanced with the physical and mental existence.

Atheism is simply an expression of an undeveloped or malformed mind with a certain awareness of the hidden reality of the archaic religions.

Atheism is an expression of absence of the psychical-spiritual development that follows the path of the Archetypes of the Soul.

To believe in the archaic religious teaching is an expression of absence of the soul.

Psychical-spiritual development follows the path of the Archetypes of the Soul.

Human being, life, love, joy, zest for life, lust, full of life, satisfaction, happiness, hope, justice, peace, power of the inner Spirit, centered in the inner Spirit, all-embracing life, totality, completeness, balance, openness, light, confidence, aim, psychical-spiritual evolution, fulfillment, conjunction of the real and spiritual world, fulfillment of the Archetypes of the Soul, source of life, catharsis, renewal, reconciliation, forgiveness, salvation, redemption, and presence of God!

The fundamental question:

**Do you want to be connected with these human values in your being and life?**
