

**Genuine Religion =**  
**Archetypal**  
**Human Development**  
**Unreached Explorations**

**This is a Psychological-Spiritual-Mental  
Concept of Human Development  
that replaces all Archaic Religions**

**Dr. Edward Schellhammer**

Sigmund Freud and thousands other pioneering thinkers:  
*"Religion is the heroin for lazy-minded and stupid people"*

*We say: "Blame yourself and not those who uncover the lies  
searching very hard for the truth, the Mystery of Mankind!"*

## The Heart of Global Solutions For the Archetypal Human Development In the Name of the Creator

- After 3000 years of a dark age for the sake of 'divine' wars, rooted in Genesis 1-28, it's time to find back to the truth about the Archetypal Human Evolution.
- Renew yourself, your mind, your life, and you renew the world.
- Create your inner paradise and you create a paradise on earth.
- Learn, study, grow and live a meaningful life for your fulfillment.
- Live solidarity for the divine Archetypal Human Evolution.
- If you want a baby, prepare yourself for the immense responsibilities.

# Mental Function: Rational Intelligence

Rational Intelligence is of highest importance also for religious matters

Efficiency orientated

Dominates and forces emotional fields

Controlled activity

Love-attitude is not part of performance

Fully neglects defense mechanisms

Reduced use of perception potentials

Independent fields of capacities

Creates psychopathological patterns

Has no access to the unconscious mind

Promotes unlimited power games

Promotes manipulation and brainwashing

Can have unlimited drive to dominate

**Religion can't be in imbalance with the rational functions.  
Rational operations without 'spirituality' is suicidal.**

# Limitedness Rational Intelligence

- Can be consciously manipulated
- No access to the collective unconscious
- Does not need spiritual intelligence
- No access to transcendental dimensions
- Does not lead to human fulfillment
- Cannot inwardly dissolve and transform
- Does not include the creative potentials
- Cannot produce forgiveness and peace
- Does not connect with inner life
- Cannot create redemption and salvation
- Does not work with inner images
- No inner orientation as a rational tool
- Does not include the psychical energy
- Not 'spiritual' (but can identify 'spiritual')

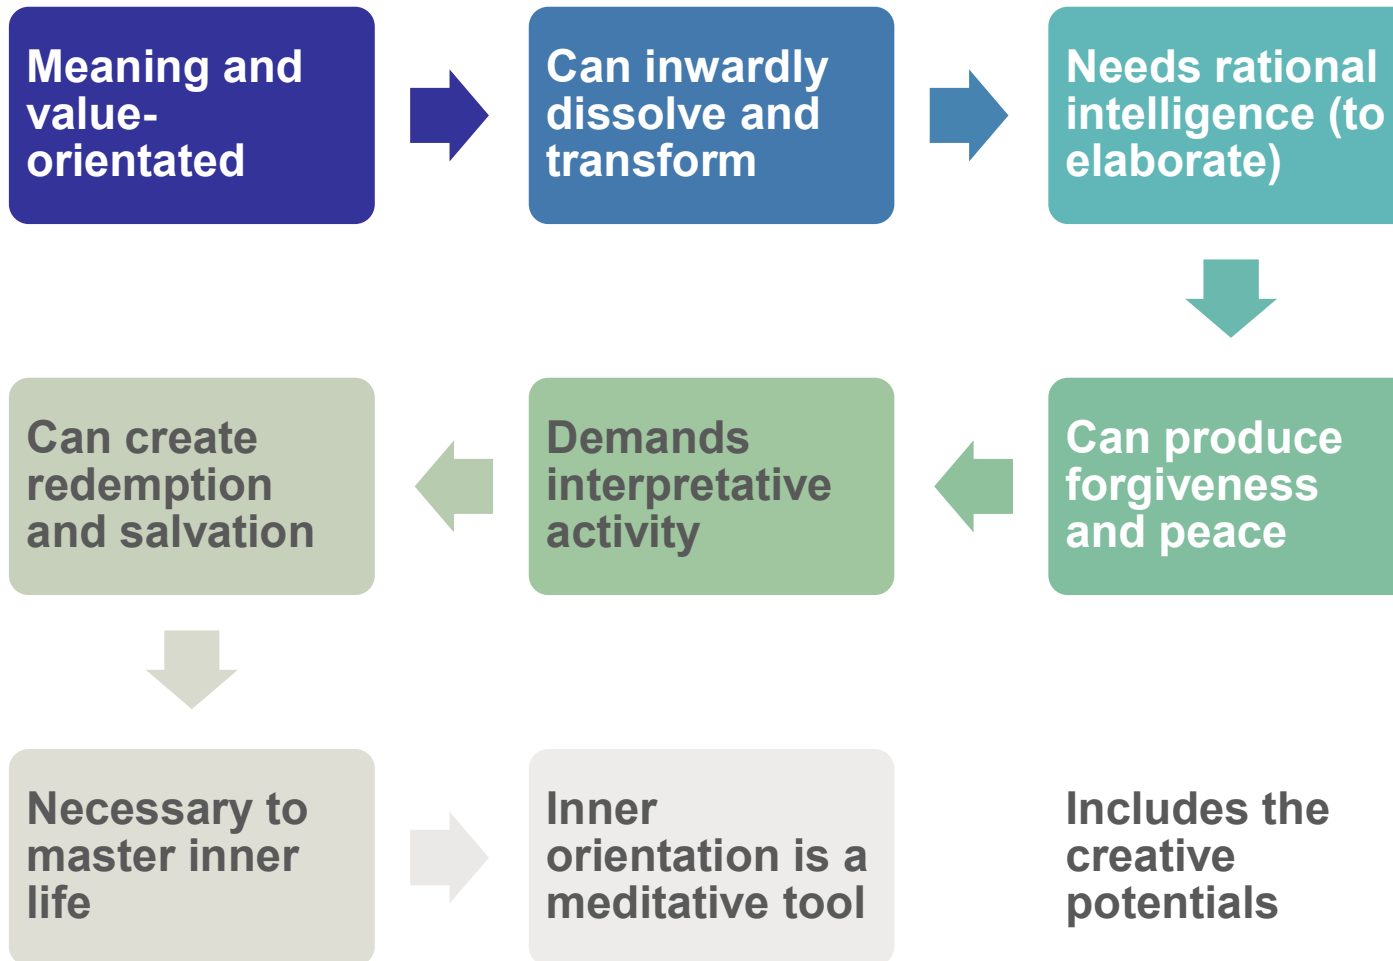

**Humans always can manipulate the shaping, development and use of the rational functions.**

# Mental Function

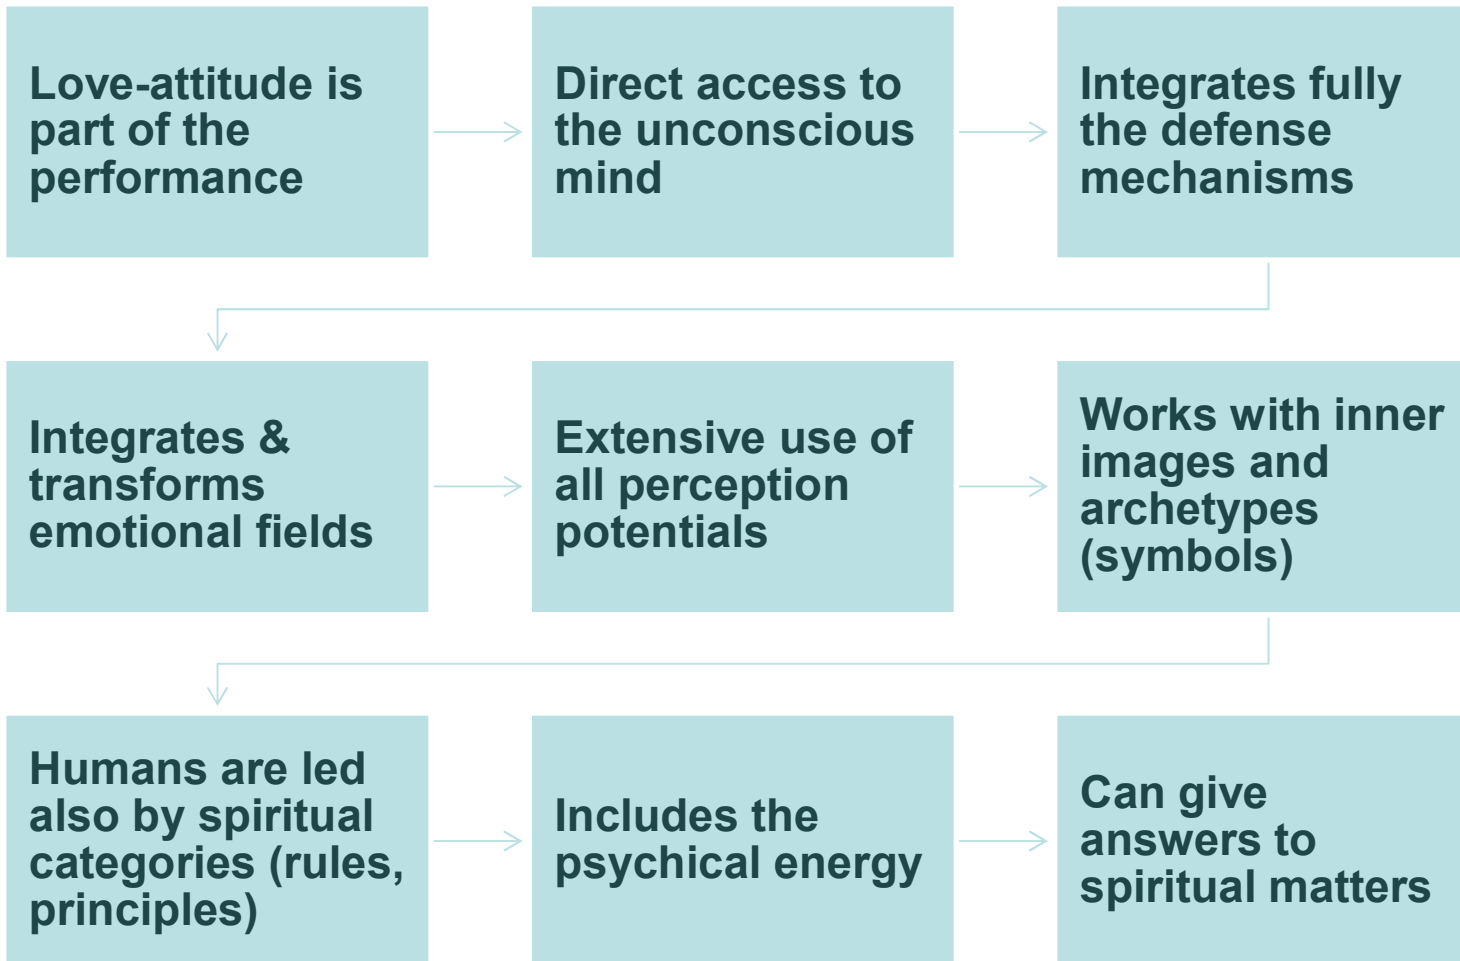

# Spiritual Intelligence

Spiritual Intelligence is of highest importance also for rational matters

## Mental Function

## Spiritual Intelligence

# Independent Spiritual Intelligence

7

- Limitedness of the spiritual intelligence:
- Independent activity
- Performance can't be formed and trained
- Never creates psychopathological patterns
- Does not promote power games
- Doesn't operate with lies, deceitfulness, cheating, etc.
- No intention to dominate and command
  
- Humans never can manipulate the function of the spiritual Intelligence; but certainly the interpretation of the 'spiritual operations (dreams, meditation).

# Genuine Spirituality - 1

The word 'Spirituality' has been distorted, abused, filled with hot air and psychotic emptiness billions of times. Only a new genuine understanding of this word can bring humanity forward in the collective process of the Evolution of Humanity. To be and to grow as a human is immanently spiritual:

- Genuine human values and inner needs are spiritual
  - The ability to love is a spiritual function
  - The interdependence between humans and the planet is spiritual
  - The meaning of all human interactions is spiritual
  - Searching for the meaning of life is spiritual
  - To forgive, reconcile, learn, and renew is spiritual
  - Joy of life and genuine happiness are spiritual
  - Peace has an inherent spiritual meaning
  - Friendship and brotherhood for the truth is spiritual
  - Fulfillment in life is a spiritual aim of human's life
- **A Religion without the “spiritual Intelligence” is useless!**

# Genuine Spirituality - 2

- Love between a man and a woman is especially spiritual
- Marriage (man-woman) has a deep spiritual and archetypal meaning
- Inner archetypal processes are spiritual and psychological
- Catharsis of the unconscious mind is a spiritual process
- Creating balance between the different mental systems is spiritual
- Growing towards wholeness is a psychological and spiritual process
- Being confronted with death is a meaningful spiritual challenge
- Faith implies spiritual qualities but also requires facts and growth

Christianity does not defend these genuine spiritual values.

# Genuine Spirituality - 3

- Dreams are created by the spiritual intelligence
- Thoughts and emotions create energy, and this is spiritual
- Humans radiate psychical energy, and this is spiritual
- Telepathy creates connection and is a spiritual connection
- Practicing self-knowledge is psychological and spiritual
- Meditation about meaning and understanding is spiritual
- Questioning about humans always leads to spiritual dimensions
- Spiritual qualities require quality of all psychical functions
- Creating a baby has a lifelong spiritual impact
- Justice and truthful democracy have a spiritual quality
- Devotedness is rooted in spiritual quality
- To care for spiritual qualities is a spiritual performance

## All Humans have the Spiritual Intelligence

---

- Is a mental function we cannot manipulate or pervert
- Is meaning and value-orientated
- Can inwardly dissolve and transform
- Needs rational intelligence (to elaborate)
- Can produce forgiveness and peace
- Can create redemption and salvation
- Is necessary to shape and master inner life
- Operates with meditation and dreams
- Means: true love is a spiritual performance
- Works with inner images and archetypes (symbols)
- Has direct access to the unconscious mind

Archaic Religion has no “Spiritual Intelligence” .

## **Psychical- Spiritual Development**

- **The word ‘spiritual’ refers to meaning and human values, human qualities, qualities of the soul, and includes a connection to the other world.**
- **The psychical-spiritual development is the fundamental challenge to become ‘round’, complete and fulfilled as a human and a soul. Religion ‘builds houses on sand’.**

# **Spirituality Requires Action**

- Dreams are created by the spiritual intelligence
- Practicing self-knowledge is psychological and spiritual
- Meditation about meaning and understanding is spiritual
- Questioning about humans leads to spiritual dimensions
- Spiritual qualities require quality of many psychological functions
- Creating a baby has a lifelong spiritual impact
- Truth, justice and truthful democracy have a spiritual quality
- Devotedness is rooted in spiritual quality and connectedness
- Archaic Religion does not use the "Spiritual Intelligence" .

# Spiritual Intelligence = The Spirit

- The power of the Spirit is an independent activity
- Performance of the Spirit can't be formed and trained cannot be manipulated, falsified or deformed
- Never creates psycho-pathological patterns
- Does not promote destructive power games
- Doesn't operate with lies, deceit, cheat, etc.
- No intention to dominate and command
- No manipulation and brainwashing at all
- Operates with dreams and correct meditation

*Humans never can manipulate the function of the spiritual Intelligence. All other mental functions can be manipulated.*

# Dreams and the Spiritual Intelligence

- The spiritual intelligence is creating the dreams in order to guide humans.
- The spiritual intelligence is 'talking' to the dreamer through dreams.
- The spiritual intelligence operates in dreams aiming balance and development.
- The spiritual intelligence is the only source to understand Soul and God (dreams, meditation).
- Humans can't manipulate dreams (and with that the spiritual intelligence).
- Humans can learn to correctly interpret their dreams and to reap the benefits.
- Correct interpretation requires knowledge about mind, behavior, world, etc.

15

# Dreams are the inner guidance

Dreams are not the rubbish of the everyday life or the past, or a result occurring by accident and without meaning. Dreams are a useful psychical-spiritual function.

Dreams can: inform, warn, give advice, support, promote, help, heal, deliberate, develop, judge, analyze, forecast, guide, transform a complex, and so on.

Images or sceneries in dreams can have a subjective meaning, an objective meaning, a spiritual meaning, an eternal meaning, or showing the meaning of a behavior or an attitude; and some dreams express ritual processes of transformation.

Every person dreams 2-4 times during his sleep. It's a human matter that many people can't remember their dreams. Everybody can learn to remember dreams.

# Functioning of the Spiritual Intelligence

17

The 'Spirit' (called also: 'Spiritual Intelligence' ) is the force that creates our dreams intelligently and composes correctly practiced meditations

The Spirit is:

- Informative
- Organizing
- Guiding.
- The principle of acting in the soul
- Animating
- Stimulating
- Benevolent.
- A source of wisdom

→ Therefore, the Spirit is not a human creation, not a product of culture, but a spiritual-psychical function in each psyche (soul, mind) of each human.

→ Its an outrageous spiritual crime how Christian Religion ignores the inner Spirit as the true 'language' of God.

# Characteristics of the Spirit

- The Spirit knows why to transfer dream messages to the person.
- The Spirit knows the 'Code program' of the psychical-spiritual growth.
- The Spirit organizes the elaboration of the unconscious mind.
- The Spirit knows the paths and steps to a well-balanced being and life.
- The Spirit is the source for information about God and transcendence.
- The Spirit identifies solutions where people can't find a solution.
- The Spirit is the source of all genuine religions, of all genuine religious and spiritual teaching.
- Only the Spirit can create archetypal dreams and reveal the mystery of humans and human development.

# The Spirit is the Highest Authority

The Spirit as the force creating dreams has specific characteristics:

- The inner Spirit is the highest authority and stands above all religions and dogmatic teaching.
  - The spiritual consciousness of most people is still on an archaic level.
  - People can't make their God responsible for everything and ask him for help as a substitute for dream interpretation or for using the spiritual intelligence.
  - For most people God (religion, dogmatism) is a substitute for self-knowledge and self-development.
- Institutionalized religion is a compensation of the use of the spiritual intelligence.

Most dreams people have, contain elements of their experiences, of their personal environment, of past behavior, of other people, institutions, the world, etc.

Dreams often reflect the operations of the mind: thought, feelings, needs, will, unconscious, love, judgment, norms, attitudes, 'I' - control, etc.

Dreams provide information the dreaming person can't know: the future of humanity, the true state of the planet, the hidden realities in politics, the scam and cheat.

Some people have dreams experiencing inner archetypal processes. The sceneries are not 'from this world' , are magic, mythical, spiritual and in that sense, archetypal.

# Everything can be reflected in dreams

# Characteristics of Humans' Soul

- A human being has a natural, but extra-sensorial consciousness about its spiritual being and spiritual origin already from the moment of procreation.
- A human being attains a natural desire for spirituality and / or religion, a kind of a (unconscious) bond to the other world.
- The soul naturally wants to be part of and belong to a spiritual or religious community; a soul doesn't want to be disconnected from the 'other world' .
- The world 'spiritual' refers to meaning, human values, human qualities, qualities of the soul, archetypal values, and the whole person.
- The 'mission' that every soul immanently has, is to become (to shape) 'qualities' , means to become 'complete' through a terrestrial life.
- It becomes obvious that soul, mind, transcendental roots and terrestrial life can't be separated without losing the psychical-spiritual development.
- ➔ **The psychical-spiritual development is the fundamental challenge to become 'round' , complete and fulfilled as a human and a soul. This is the fundamental purpose and aim of 'becoming a human'.**

# Mission of Humans' Soul

22

- The 'mission' that every soul immanently has, is: to become (to shape) 'qualities' , means to become 'complete' and 'fulfilled' through a terrestrial life.
- It becomes obvious that soul, mind, transcendental roots and terrestrial life can't be separated without losing the archetypal psychical-spiritual development.
- The psychical-spiritual development is the fundamental challenge to become 'round' , complete and fulfilled as a human and a soul.
  - ➔ This is the fundamental (arquetypal) purpose and aim of 'becoming a human', of meaning of life.
  - ➔ Religion does not promote this aim.

# Psychical- Spiritual Development

- The word 'spiritual' refers to meaning and human values, human qualities, qualities of the soul, and includes a connection to the other world.
- It becomes obvious that soul, mind, transcendental roots and terrestrial life can't be separated without losing the psychical-spiritual development.
- The psychical-spiritual development is the fundamental challenge to become 'round', complete and fulfilled as a human and a soul. There is no other way!

# The Human Being

What makes a person a human being?

It's his psychical-spiritual inner life – the mind,  
in a few words with the following core mental functions:

---

- Perception: e.g. also looking behind the façades and giving meaning
- Intelligence: e.g. analyzing, interpreting, evaluating, judging, concluding
- Emotion: e.g. all possible positive and negative states, each with a meaning
- Psychical needs: e.g. being accepted, autonomy, security, friendship, love
- Spiritual needs: e.g. values, meaning of life, spiritual longing, understanding
- Love: e.g. self-love, love for a partner, kids, others, nature, animals
- Dreams & meditation: e.g. the messages given by the spiritual intelligence
- Self-Identity: e.g. talents, potentials, psychical-spiritual development
- The inner opposite gender pole: e.g. the manifoldness of gender qualities
- The unconscious: e.g. biography, conflicts, complexes, norms, super-ego
- The psychical-spiritual organism: with more mental functions to be shaped

→ Obviously, the shaped mental functions of all people have different qualities, from a total distorted and malformed state to a highly developed and all-sided balanced well-functioning.

# Shaped Mental Functions

Mental functions can be ignored, distorted, malformed, unformed, dulled, manipulated, brainwashed, paralyzed, damaged, out of control, much reduced or perverted in its capacities.

Critical mental functions reduce capacities of making a living, of personal development, of constructive social interactions, of dealing with criticalities, of adequate working attitudes, of valuing life, of identifying genuine meaning of life, and so on.

Critical mental functions have immense negative effects in personal life, in relationship life, in love and sex matters, in family life, in leader functions, in the management of production and services, in the economy, in politics, in public education, in university teaching and research, *and in religion and spirituality.*

25

- A distorted, false, suppressing, illusionary, psychotic religion shapes the mental functions in the same way.
- The lies and falseness is the truth, the theatre is genuine being, the fabrication is infallible reality, and the evil pretends to be God.

# Brain Development

Many elements influence the development of the brain in a critical way:

- ✘ **Prenatal:** Alcohol, tobacco, drugs, medicine, chemicals, external contamination, pollution, mother's lack of hygiene, dirty water, lack of vitamins and minerals, bad nutrition, mothers' illnesses ...
  
  - ✘ **After birth;** Infancy, early childhood : Contamination, pollution, fine dust, dirty water, ignored hygiene, lack of vitamins and minerals, housing (slums), lack of health care ...
  
  - ✘ **Therefore:** A damaged brain reduces the development and capacities of the mental functions, also in religious matters.
- 
- ➔ **Already in the prenatal time the fetus experiences the falseness and lies of the parents and social environment.**
  - ➔ **For a huge majority of children the religion is omnipresent with its fabricated teaching and psychotic brainwash.**
  - ➔ **Already in the prenatal time the religious roots are established in the brain: an addiction as a result of critical influences.**

# Mind and Religion

27

- There would not be any religion if people would not have mental functions.
  - To separate religion from the mind with its mental functions is the fundamental fault of all religions.
  - The way the mental functions operate depends 100% on the brain development, on education, experiences, nurturing and environment.
  - Religion, its teaching and practices, can't be better than the operational quality of the shaped mental functions of its agents.
- ➔ **Politicians and leaders can't be better than the quality of their shaped mental functions.**

# The Unimaginable Shock

Think for a moment the unimaginable possibility:

- Most fathers, mothers, grand-fathers and grand-mothers, uncles and aunts, brothers and sisters, also the partner and their children, have very malformed and distorted mental functions.
- Most of the teachers and professors, students had in the past and may have today, and / or in general they know, have (had) very malformed and distorted mental functions.
- Most of Christian religious incumbents, including Bishops, Cardinals and the Pope, have very malformed and distorted mental functions.
- A huge majority of politicians and leaders in societies worldwide have very malformed and distorted mental functions.
- They all are brainwashed, misshaped, and misled since prenatal time from the pseudo-religious inheritance since the archaic Age.
- Thus, a majority of the 7.8 billion people (2019) have very malformed and distorted mental functions.
- Thus, they are completely lost, and humanity is lost as well!

# Fundamentals of Human Evolution

29

All psychical and spiritual functions of the mind must be formed in an all-sided balanced way in order to get success in business and life, to reach happiness, genuine joy of life, a constructive way of living, complete fulfillment.

- Without this forming process sustainable humane qualities and complete fulfillment can't be achieved.
  - Without this forming process no salvation and no redemption is possible, not with any religious or spiritual belief or practice.
  - Without this forming process a human being stays in inner oppositions, inner disruption, in defense of the realities, and in fundamental unconsciousness.
  - If a human does not consciously form these psychical and spiritual functions aiming completeness, then he is and remains an archaic human; simply a human biomass with a congruent low value.
  - Collectively ignoring the adequate forming of the mental functions not only makes people dependant on authorities (churches, institutions, leaders), but in the end destroys humanity and the earth.
- **Most authorities are not formed in an all-sided balanced way; a huge majority has a very malformed and distorted mind.**
- **Archaic religions, also politics and leadership, are the agents of decay and doom. Who now still wants anti-evolutionary archaic religions?**

# Regressions to the Prenatal Time

Regressions with meditation or hypnosis back to the early childhood and to the prenatal time shows us:

- A fetus has a soul and this soul (an energetic body) has a natural ability to perceive external realities.
- A fetus can recognize the truth even though the state of brain development does not capacitate such perception.
- The soul of a fetus also has a general scale for what is good and bad (evil).
- In that sense a fetus has a natural basic conscience (disposition), obviously to be developed like the manifold mental functions.
- Results of meditative regressions or regressions with hypnosis can be scientifically verified (or falsified).
- The interpretations certainly have a spectrum with a field of connotations.
- Much of the conclusions are based on common sense or scientific knowledge, are self-evident or comprehensible on the level of meaning.

# Pre- Conception Existence

- **Extending regressions towards the time before conception, one can experience for example:**
- I am far away from the earth; in some way not.
- I must go to earth; it's time now.
- I must go now to be challenged, to learn and grow.
- I don't want to go, but I must.
- In no way do I want to go to earth, but I must.
- WOW, great, fantastic, I am going now.
- This mother and father I have to go to is disgusting.
- The world of the souls seems to be organized.
- There are laws when and why a soul has to incarnate.
- This other world is in a kind of fog, nothing clear.

# Experiences of a Fetus

## The soul of a fetus experiences:

- A self-identity shortly before and after procreation
- Being accepted or not accepted on earth
- Reliable and trustworthy parents - or not
- Peace and tranquility - or the opposite
- Love as a general positive attitude - or not
- Emotional attention and care - or not
- Protection (health, development) - or not
- Mother as the psycho-energetic environment
- Mother as the safe “home”
- Father as the external provider and authority
- The big unknown manifold world outside
- The good and bad (evil) in the world outside
- The personality qualities of people outside
- The religion with all its emotional impacts

# The Life Symbol: Genuine Source

33

Human being, life, love, joy, zest for life, lust, full of life, satisfaction, happiness, hope, justice, peace, power of the inner Spirit, centered in the inner Spirit, all-embracing life, totality, completeness, balance, openness, light, confidence, aim, psychical-spiritual evolution, fulfillment, conjunction of the real and spiritual world, fulfillment of the Archetypes of the Soul, source of life, catharsis, renewal, reconciliation, forgiveness, salvation, redemption, and presence of God!

The fundamental question:  
**Do you want to be connected with these human values in your being and life?**

# The Path for a New Age: A majority of people feel sad

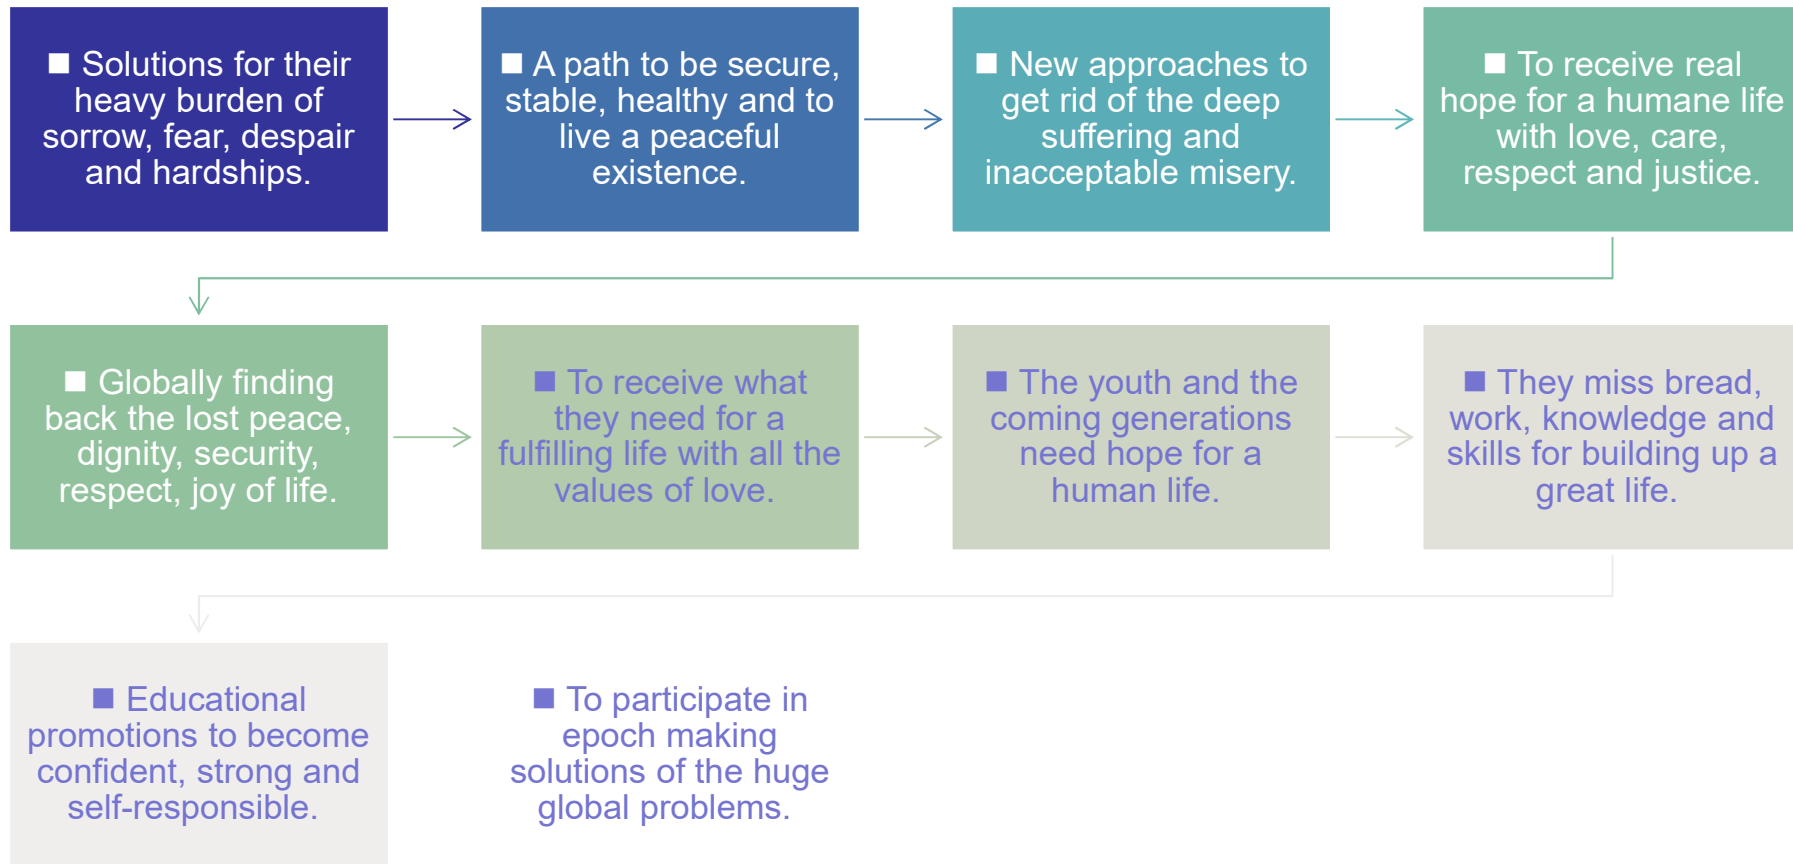

## Billions of humans:

- Experience misery, injustice, falseness and lunacy everywhere.
- Hurt by the monstrous economic crisis and infamous wars.
- Miss a secure and healthy home and a healthy secure environment.
- Billions are desperate, hopeless, deeply feel sadness and helplessness.
- Miss love and care, respect and reliability from the leaders.
- Miss the valuable human values such as truthfulness and fairness.
- Are trapped in meanders, aberrancies and incredible failure of religions.
- Have thoroughly lost trust in political leadership around the globe.
- Are angry and indignant about all the political and economic failure.
- Wish for sustainable solutions for their life and the future of the youth.

# The Path for a New Age - 1

## Billions miss a lot:

## The Path for a New Age - 2

People have made terrible mistakes; but they can profoundly learn from it.

People have missed chances to take the right decisions for development.

People have ignored and neglected the most important human values.

People have lost themselves in a dark labyrinth of political, economic and religious fights.

People have lost themselves in running for superficial and egoistic purposes.

People have forgotten the immeasurable values of their cultural history.

People have played with lies, cheat, deceit, distortion, delusion, empty promises.

People have forgotten that they only have one earth and that they must care for it.

People have ignored that all humans on earth are a divine creation to be formed and developed.

# The Path for a New Age - 3

People must find new faith in yourself, in their inner Spirit, in their inner potentials.

People must become creative, innovative and pioneering for new knowledge and new solutions.

People must aspire to new goals and meaning of life with strength, endurance and perseverance.

People must work together for a new holistic and a sustainable development of societies.

People must listen to each other with respect, trust, openness and understanding.

People must cooperate, talk, discuss without taboos and take decisions together.

People must solve the immense global problems with your soul and not with wars.

People must unify humanity for a cooperative, balanced, peaceful and equitable path.

# The Precious Human

- ☺ All-sided formed mental functions give mental power.
  - ☺ Inner strength and founded confidence is a great value.
  - ☺ Totally free from unconscious burden is peaceful being.
  - ☺ To find the genuine inner being is like coming home.
  - ☺ To be rooted in the truth makes a person very precious.
  - ☺ The beauty of a soul is like a priceless magic diamond.
  - ☺ True love is a kingly experience and is pure happiness.
  - ☺ To reach completeness is like being inside a strong sun.
  - ☺ To have formed inside a paradise is supreme happiness.
  - ☺ To live with spiritual intelligence makes the Self-important.
  - ☺ To understand the 'Mystery of Human' makes sovereign.
- 
- ➔ You can achieve all these human values living the Archetypal Process of the Soul.
  - ➔ With these values a human life becomes completely different from what religions make of humans and their lives.

# The Spiritual Guidance

To grow psychologically and spiritually requires considering:

- The Spirit knows why and how and he transfers messages to the person.
- The Spirit knows the 'Code program' of the psychical-spiritual growth.
- The Spirit organizes the elaboration of the inventory in the unconscious.
- The Spirit knows the paths and steps to a well-balanced being and life.
- The Spirit is the source for information about God and the transcendence.
- The Spirit identifies solutions where people can't find a solution with intelligence.
- ➔ The Spirit is the source of all genuine religions, of all religious and spiritual teaching.
- ➔ Only the Spirit can create archetypal dreams and reveal the mystery of humans and human evolution.

# The Archetypal Process of the Soul

# Supreme Spiritual Authority

- All these processes can only occur after the fulfillment of the completeness and wholeness.
- The appointments of the aims can start within the processes of psychical-spiritual development.
- All these processes happen in (archetypal) dreams, mostly mystery-like 'holy' sceneries.

## Characteristics of Archetypes

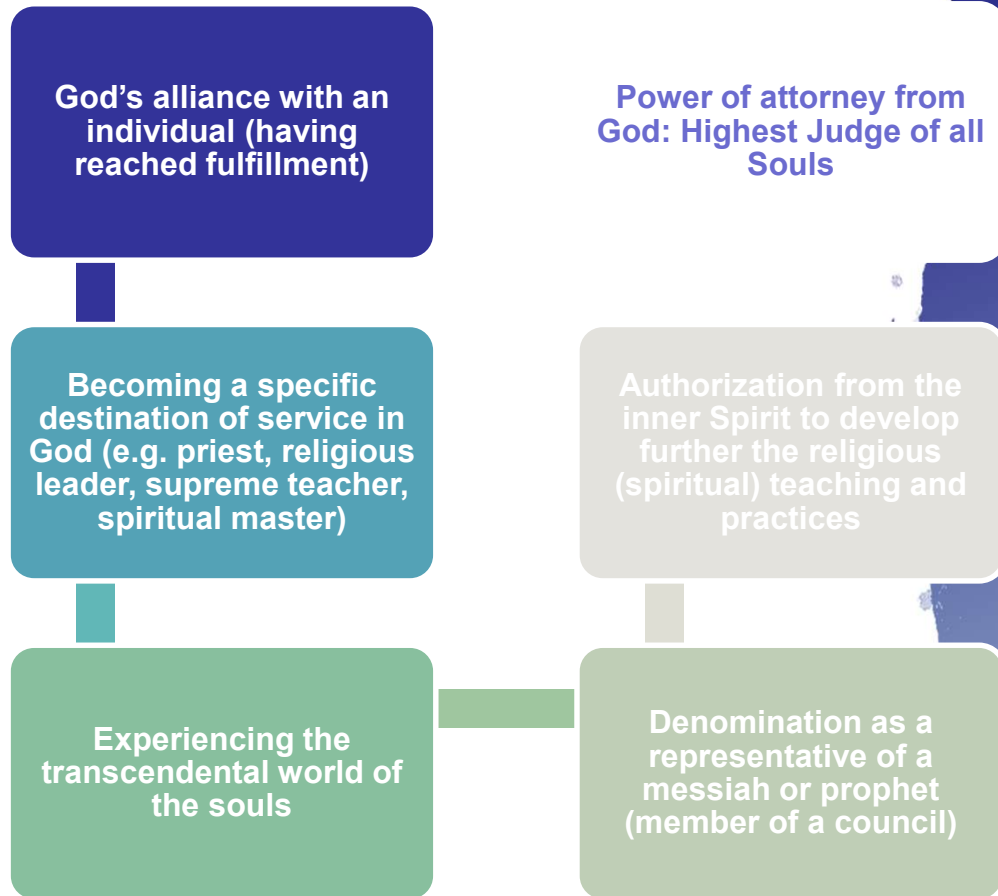

- Archetypes are instruments that help in finding orientation during the process of Individuation.
- Archetypes stimulate forces, growth and development.
- Archetypes order and place psychical forces into new structures and new interconnections.
- Archetypes open and light up new inner realities.
- Archetypes represent the eternally valid psychical-spiritual process and realities.
- Archetypes facilitate intercultural communication about these realities.
- Archetypes lead to experience the 'mystery' of man and God.
- Archetypes are the very old images of a transcendental reality.
- Archetypes of the soul are also energetic 'transformers' .

# Archetypes in Dreams

Archetypes are expressed in symbolic sceneries and actions:

- Circle-cross-Mandala, pentagram, pyramid, square, triangle
- Philosopher' s stone
- Chalice of the Grail, sword of the King of the Holy Grail
- King, queen; celebration of coronation, getting a 'bond' and insignia
- Birth, the new human being, a new land
- Sun, moon, light, source (well)
- Owl, speaking snake, eagle, lion, tiger, elephant
- Tree (life tree), garden (paradise)
- Cottage, house, chateau, castle, temple, 'holy' places
- Going on a journey, to 'school' (accepting the psychical spiritual path)
- Discovering inner life: searching for the treasure, going in deep darkness
- Transformation: To die, funeral, farewell, coming to a new land
- Marriage, embracement with a fairy, entering into a sun
- New spiritual principles: Insignia of a king, a wise person, a new land
- Harmony interior-exterior, melody, hexagram, light, warmth (of love)
- Circle-Cross-Mandala, sun, ancient source of life, paradise

# Supreme Archetypes of the Soul - 1

During a higher phase of psychical-spiritual development, a “man of God” or “woman of God” has experienced very special dreams related to the highest archetypal processes:

# Supreme Archetypes of the Soul - 2

45

- **In the history of mankind, the inner Spirit in the soul of some wise men and women have made vivid these Archetypes in their inner life (soul).**
  - **Religions have stolen the transcendental archetypal experiences these wise people, spiritual kings in their soul, have performed and received in dreams.**
  - **All Popes and Cardinals have stolen their archetypal experiences. Terrestrial Emperors and Kings have stolen their archetypal experiences.**
  - **Politicians, supreme rulers of folks, aristocrats and the elites in the capitalistic economy have stolen their experienced inner archetypal processes, have copied the archetypal pictures (from dreams such wise individuals have had), but never performed such inner transformations produced and guided by the inner Spirit.**
- 
- ➔ This is the systemic failure of economics, politics, religion, public education, society.
  - ➔ Fulfillment of supreme archetypal processes is not fusible with political power.
  - ➔ Evolutionary politics must be practiced with respect for the Archetypes of the Soul.

# Mental and Cosmic Energy I

- Most humans know about telepathy and it is scientifically proven that there is a kind of mental energy – also operating in the world of animals.
  - The one energy type creates the channel (“cosmic”) and the other energy type forms the meaning that is sent (“mental”).
  - This energy operates independently from distance and terrestrial realities (e.g. buildings), can reach a being thousands of miles away within seconds.
- **The entire humanity is tied to the shaped cosmic energy and therefore the entire humanity forms one huge organism in evolution or decay.**

# Mental and Cosmic Energy II

## We can work with this energy:

- **We can send messages or a sun to people, create a pyramid around people sitting in it, produce a catharsis for individuals or groups, relax a hundred and more people at the same time without speaking a word (within minutes), connect people with the spiritual sun, connect people with the Archetypes of the Soul in order to experience such inner processes, or simply clean the cosmic energy in a room (created from people having been there before), and much more.**

**→ The entire humanity is tied to the shaped cosmic energy and therefore the entire humanity forms one huge organism in evolution or decay.**

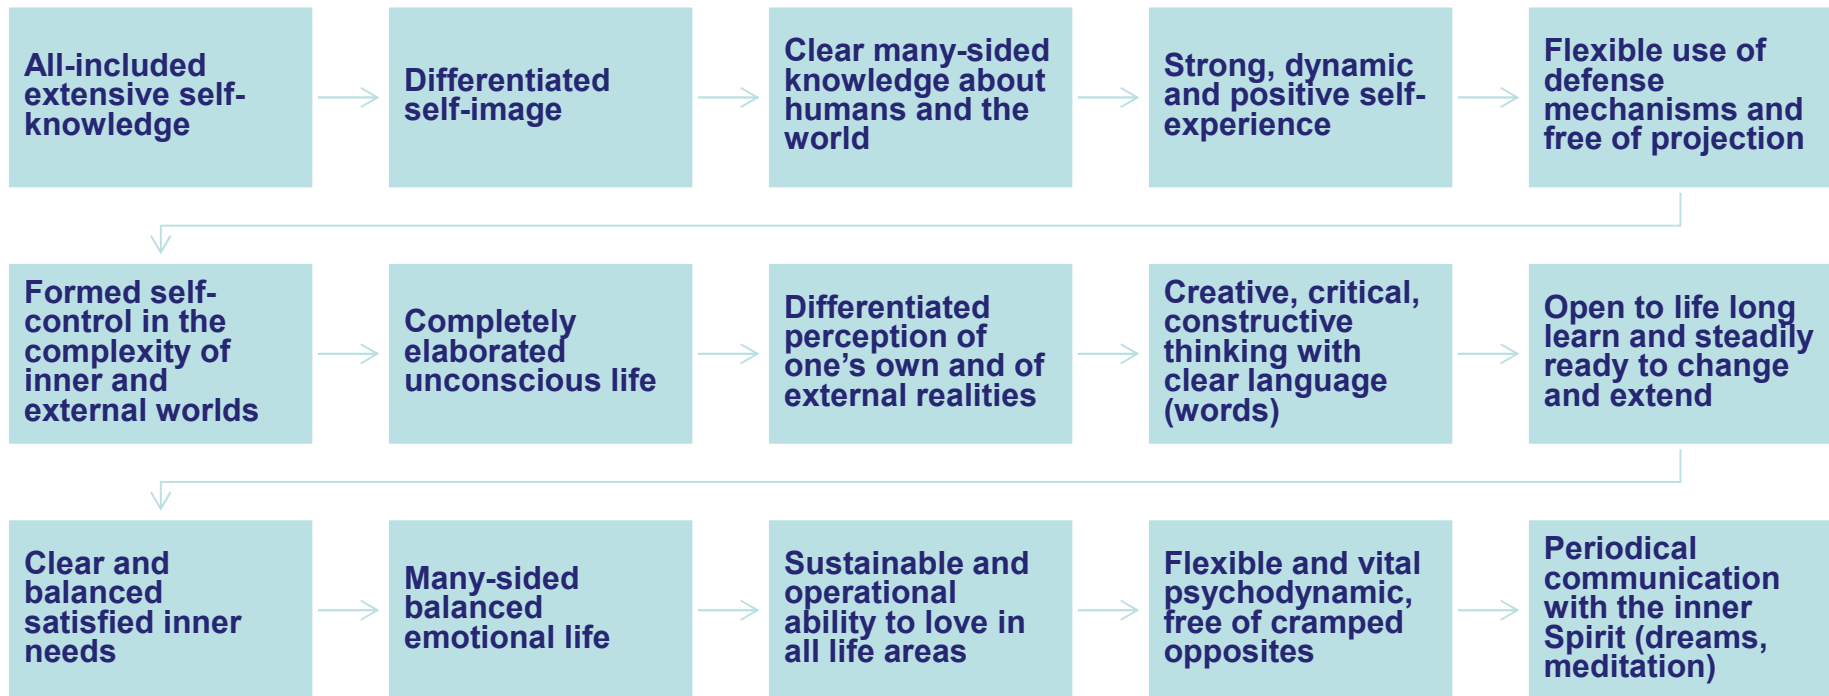

# Mental and Cosmic Energy III

## Chained with the history through this energy:

- ❖ The entire history of humanity is engraved in the cosmic energy around the globe.
- ❖ It's the collective unconscious full of dark history, unelaborated, not reconciled, and influencing most souls on earth as everything must be repeated until it is understood, reconciled, and changed in the minds and worlds.
- ❖ The darkness is so heavy that the spiritual sun can't reach anymore most souls on earth – the consequence of rejecting the truth and of Deicide.
- ➔ The entire humanity is tied to the shaped cosmic energy and therefore the entire humanity forms one huge organism in evolution or decay.
- ➔ Without a global catharsis of this accumulated history in the cosmic energy there will be the end of human evolution, sooner or later.
- ➔ There is only one man on earth today that can do this process of forgiveness.

# New 'Bible' needed?

51

A concept of a New Millennium 'Bible' is not simply about true religion and true spirituality, about a true prophet or any true new (or reincarnated) messiah, added with 'old holy words'.

It's about the human evolution as a transcendental-terrestrial project and with that it's also about politics, economy, public and academic education (also add mass media) for the future of humanity and the future ways of living.

It's all about an "Evolutionary Philosophical Anthropology" which includes the Archetypes of the Soul. In that sense, no 'New Bible' is needed, but a psychological, spiritual, philosophical, practical, and archetypal Life Book.
